

EDITORIAL

Understanding the ecology of wireworms and improving their control: a special issue

M. Traugott · N. Schallhart · K. Staudacher · C. Wallinger 1

REVIEW

Pheromones and attractants of click beetles: an overview

M. Tóth 3

ORIGINAL PAPERS

The molecular identification and genetic diversity of economically important wireworm species (Coleoptera: Elateridae) in Canada

C.M. Benerfer · W.G. van Herk · J.S. Ellis · R.P. Blackshaw · R.S. Vernon · M.E. Knight 19

Validation of a sequential sampling plan for wireworms (Coleoptera: Elateridae) at sugarcane planting

R. Cherry · P. Grose · E. Barbieri 29

Occurrence of *Agriotes* wireworms in Austrian agricultural land

K. Staudacher · N. Schallhart · P. Pitterl · C. Wallinger · N. Brunner · M. Landl · B. Kromp · J. Glauninger · M. Traugott 33

Correlations between wireworm damages in potato fields and landscape structure at different scales

A. Hermann · N. Brunner · P. Hann · T. Wrbka · B. Kromp 41

Distribution of adult stages of soil insect pests across an agricultural landscape

R.P. Blackshaw · H. Hicks 53

Wireworm damage to wheat seedlings: effect of temperature and wireworm state

W.G. van Herk · R.S. Vernon 63

Physical exclusion of adult click beetles from wheat with an exclusion trench

R.S. Vernon · W.G. van Herk 77

Preliminary investigations into the use of trap crops to control *Agriotes* spp. (Coleoptera: Elateridae) in potato crops

M. Landl · J. Glauninger 85

Varietal susceptibility to the corn wireworm *Melanotus communis* (Coleoptera: Elateridae) in sugarcane

N.A. Larsen · G.S. Nuessly · R.H. Cherry · B. Glaz 91

A survey of microbial antagonists of *Agriotes* wireworms from Germany and Italy

R.G. Kleespies · C. Ritter · G. Zimmermann · F. Burghause · S. Feiertag · A. Leclerque 99

Ribosomal RNA phylogeny of bacterial and fungal pathogens of *Agriotes* wireworms

A. Leclerque · P.V. Mitkovets · A.-C. Fatu · C. Schuster · R.G. Kleespies 107

Categorization and numerical assessment of wireworm mobility over time following exposure to bifenthrin

W.G. van Herk · R.S. Vernon 115

Response of the dusky wireworm, *Agriotes obscurus* (Coleoptera: Elateridae), to residual levels of bifenthrin in field soil

W.G. van Herk · R.S. Vernon · S. McGinnis 125

Crop protection and mortality of *Agriotes obscurus* wireworms with blended insecticidal wheat seed treatments

R.S. Vernon · W.G. van Herk · M. Clodius · C. Harding 137
