

Barcoding stingless bees: genetic diversity of the economically important genus <i>Scaptotrigona</i> in Mesoamerica M. HURTADO-BURILLO, C. RUIZ, W. DE JESÚS MAY-ITZÁ, J.J.G. QUEZADA-EÚAN, P. DE LA RÚA (Spain, Mexico)	1
Occurrence, diversity and pattern of damage of <i>Oplostomus</i> species (Coleoptera: Scarabaeidae), honey bee pests in Kenya A.T. FOMBONG, F.N. MUMOKI, E. MULI, D.K. MASIGA, R.T. ARBOGAST, P.E.A. TEAL, B. TORTO (Kenya, USA)	11
Lack of lethal and sublethal effects of CryI Δ C Bt-toxin on larvae of the stingless bee <i>Trigona spinipes</i> M.A.P. LIMA, C.S.S. PIRES, R.N.C. GUEDES, L.A.O. CAMPOS (Brazil)	21
Trap-nests for stingless bees (Hymenoptera, Meliponini) R.C. OLIVEIRA, C. MENEZES, A.E.E. SOARES, V.L.I. FONSECA (The Netherlands, Brazil)	29
Assessment of flight activity and homing ability in Asian and European honey bee species, <i>Apis cerana</i> and <i>Apis mellifera</i> , measured with radio frequency tags X. HE, W. WANG, Q. QIN, Z. ZENG, S. ZHANG, A.B. BARRON (People's Republic Of China, Australia)	38
A comparison of bee bread made by Africanized and European honey bees (<i>Apis mellifera</i>) and its effects on hemolymph protein titers G. DEGRANDI-HOFFMAN, B.J. ECKHOLM, M.H. HUANG (USA)	52
Overlap in trophic and temporal niches in the flower-visiting bee guild (Hymenoptera, Apoidea) of a tropical dry forest G.M. DE M. SANTOS, C.A.L. DE CARVALHO, C.M.L. AGUIAR, L.S.S.R. MACÊDO, M.A.R. MELLO (Brazil, Germany)	64
Investigation of <i>Partamona helleri</i> (Apidae, Meliponini) B chromosome origin. An approach by microdissection and whole chromosome painting C.C.C. MARTINS, D. DINIZ, P.E. SOBRINHO-SCUDELER, F. FORESTI, L.A.O. CAMPOS, M.A. COSTA (Brazil)	75
Exposure to thymol decreased phototactic behaviour in the honeybee (<i>Apis mellifera</i>) in laboratory conditions M. BERGOUNOUX, M. TREILHOU, C. ARMENGAUD (France)	82
Movement patterns of solitary bees in a threatened fragmented habitat A. DORCHIN, I. FILIN, I. IZHAKI, A. DAFNI (Israel)	90
Associative olfactory learning of the red dwarf honey bee <i>Apis florea</i> R. KASPI, S. SHAFIR (Israel)	100
A scientific note on the comparison of airborne volatiles produced by commercial bumble bee (<i>Bombus impatiens</i>) and honey bee (<i>Apis mellifera</i>) colonies J.R. GRAHAM, M.J. CARROLL, P.E.A. TEAL, J.D. ELLIS (USA)	110
Number of honeybee colonies in areas with high and low beekeeping activity in Southern Mexico R.F.A. MORITZ, F.B. KRAUS, A. HUTH-SCHWARZ, S. WOLF, C.A.C. CARRILLO, R.J. PAXTON, R. VANDAME (Germany, South Africa, Uk, Mexico)	113
