Articles

Verticillium dahliae and other pathogenic fungi in *Cirsium arvense* from New Zealand pastures: occurrence, pathogenicity and biological control potential

RA Skipp, GW Bourdôt, GA Hurrell, LY Chen, DJ Wilson and DJ Saville 1

Effects of stocking rate and closing date on subterranean clover populations and dry matter production in dryland sheep pastures

S Ates, RJ Lucas and GR Edwards 22

Multiple small monthly doses of dicyandiamide (DCD) did not reduce denitrification in Waikato dairy pasture

NL Watkins, LA Schipper, GP Sparling, B Thorrold and M Balks 37

Nitrate and phosphorus leaching in New Zealand: a national perspective

JR Dymond, A-GE Ausseil, RL Parfitt, A Herzig and RW McDowell 49

Using near-continuous measurements of N₂O emission from urine-affected soil to guide manual gas sampling regimes

TJ van der Weerden, TJ Clough and TM Styles 60

Letters to the editor

The effects of nitrification inhibitors on pasture production

DC Edmeades 77

Response to Dr Edmeades' letter: 'The effects of nitrification inhibitors on pasture production'

P Carey 81

Short communication

Use of shallow samples to estimate the total carbon storage in pastoral soils

FM Kelliher, RL Parfitt, C van Koten, LA Schipper and G Rys 86

Book review

Handbook of soil sciences: Resource management and environmental impacts, edited by Pan Ming Huang, Yuncong Li and Malcolm E. Sumner

TJ Clough 91
