## Contents

- 205 M. Dell'Acqua, S. Gomarasca, A. Porro and S. Bocchi  
A tropical grass resource for pasture improvement and landscape management: *Themeda triandra* Forssk  
Review
- 216 M. Duru, L. Hossard, G. Martin and J. P. Theau  
A methodology for characterization and analysis of plant functional composition in grassland-based farms
- 228 A. Navarro-Villa, M. O'Brien, S. López, T. M. Boland and P. O'Kiely  
*In vitro* rumen methane output of grasses and grass silages differing in fermentation characteristics using the gas-production technique (GPT)
- 245 K. E. Turner, K. A. Cassida and A. M. Zajac  
Weight gains, blood parameters and faecal egg counts when meat-goat kids were finished on alfalfa, red clover and orchardgrass pastures
- 260 F. W. Kirkham, A. Bhogal, B. J. Chambers, R. M. Dunn and J. R. B. Tallwin  
Effects of spreading species-rich green hay on the botanical composition of an agriculturally improved hay meadow in northern England
- 271 M. F. Amaral, J. C. Mezzalana, C. Bremm, J. K. Da Trindade, M. J. Gibb, R. W. M. Suñe and P. C. de F. Carvalho  
Sward structure management for a maximum short-term intake rate in annual ryegrass
- 278 A. A. A. Jacobs, J. A. Scheper, M. A. Benvenuti, I. J. Gordon, D. P. Poppi and A. Elgersma  
Gradients in fracture force and grazing resistance across canopy layers in seven tropical grass species
- 288 A. El-Keblawy  
Impacts of dormancy-regulating chemicals on innate and salinity-induced dormancy of four forage grasses native to Arabian deserts
- 297 J. Bedia and J. Busqué  
Productivity, grazing utilization, forage quality and primary production controls of species-rich alpine grasslands with *Nardus stricta* in northern Spain
- 313 J. L. Moir, G. R. Edwards and L. N. Berry  
Nitrogen uptake and leaching loss of thirteen temperate grass species under high N loading
- 326 M. Krawutschke, J. Thaysen, N. Weiher, F. Taube and M. Gierus  
Effects of inoculants and wilting on silage fermentation and nutritive characteristics of red clover–grass mixtures
- 339 A. Zehra, F. Shaikh, R. Ansari, B. Gul and M. A. Khan  
Effect of ascorbic acid on seed germination of three halophytic grass species under saline conditions
