

ANIMAL GENETICS

Volume 44 Number 3 June 2013

CONTENTS

Articles

- 241 Multiple promoters and targeted microRNAs direct the expressions of *HMGB3* gene transcripts in dairy cattle
L Li, J Huang, Z Ju, Q Li, C Wang, C Qi, Y Zhang, Q Hou, S Hang, J Zhong
- 251 Identification of peptides from foot-and-mouth disease virus structural proteins bound by class I swine leukocyte antigen (SLA) alleles, SLA-1*0401 and SLA-2*0401
L E Pedersen, M Harndahl, M Nielsen, J R Patch, G Jungersen, S Buus, W T Golde
- 259 Farm-by-farm analysis of microsatellite, mtDNA and SNP genotype data reveals inbreeding and crossbreeding as threats to the survival of a native Spanish pig breed
J M Herrero-Medrano, H J Megens, R P Crooijmans, J M Abellaneda, G Ramis
- 267 Microsatellite variation in the equine MHC
C L Brinkmeyer-Langford, J J Cai, C A Gill, L C Skow
- 276 Copy number variations identified in the chicken using a 60K SNP BeadChip
X Jia, S Chen, H Zhou, D Li, W Liu, N Yang
- 285 Quantitative trait loci for resistance to *Haemonchus contortus* artificial challenge in Red Maasai and Dorper sheep of East Africa
K Marshall, J M Mugambi, S Nagda, T S Sonstegard, C P Van Tassell, R L Baker, J P Gibson
- 296 Identification of differentially expressed genes in the oviduct of two rabbit lines divergently selected for uterine capacity using suppression subtractive hybridization
M Ballester, A Castelló, R Peiró, M J Argente, M A Santacreu, J M Folch
- 305 A *de novo* mutation in *KIT* causes white spotting in a subpopulation of German Shepherd dogs
A K Wong, A L Ruhe, K R Robertson, E R Loew, D C Williams, M W Neff
- 311 Variation of cats under domestication: genetic assignment of domestic cats to breeds and worldwide random-bred populations
J D Kurushima, M J Lipinski, B Gandolfi, L Froenicke, J C Grahn, R A Grahn, L A Lyons
- 325 Genetic diversity and investigation of polledness in divergent goat populations using 52 088 SNPs
J W Kijas, J S Ortiz, R McCulloch, A James, B Brice, B Swain, G Tosser-Klopp and the International Goat Genome Consortium

Short Communications

- 336 Disclosing the origin and diversity of Omani cattle
O Mahgoub, H A Babiker, I T Kadim, M Al-Kindi, S Hassan, W Al-Marzooqi, Y E Eltahir, M A Al-Abri, A Al-Khayat, K R Al-Sinani, H H Al-Khanjari, V Costa, S Chen, A Beja-Pereira
- 340 Polymorphisms in the promoter region of the adiponectin (*ADIPOQ*) gene are presumably associated with transcription level and carcass traits in pigs
J Cieslak, T Flisikowska, A Schnieke, A Kind, M Szydlowski, M Switonski, K Flisikowski
- 344 Mitochondrial analysis sheds light on the origin of hair sheep
I Álvarez, J Capote, A Traoré, N Fonseca, K Pérez, M Cuervo, I Fernández, F Goyache
- 348 Low neutral genetic variability in a specialist puffin hunter: the Norwegian Lundehund
C Melis, Å A Borg, I S Espelien, H Jensen
- 352 Tandem repeats modify the structure of the canine *CD1D* gene
F A L van Beeck, P A J Leegwater, T Herrmann, F Broere, V P M G Rutten, T Willemsse, I Van Rhijn

Contents continued

Brief Notes

- 356 Bovine spongiform encephalopathy (BSE)-associated polymorphisms of the prion protein (*PRNP*) gene in Korean native cattle
B-H Jeong, H-T Jin, R I Carp, Y-S Kim
- 357 Variability in the *melanocortin 1 receptor (MC1R)* gene in wild boars and local pig breeds in Poland
M Babicz, M Pastwa, E Skrzypczak, J T Buczyński
- 359 Erratum
