

- 1 Effect of Brassicaceae seed meals with different glucosinolate profiles on *Rhizoctonia* root rot in wheat
M. Handiseni, J. Brown, R. Zemetra and M. Mazzola
- 6 *Phyllosticta* species on citrus: Risk estimation of resistance to QoI fungicides and identification of species with cytochrome *b* gene sequences
G. Stammler, G.C. Schutte, J. Speakman, S. Miessner and P.W. Crous
- 13 Potential of citrus budlings originating in the Middle East as sources of citrus viroids
S.A. Al-Harhi, A.M. Al-Sadi and A.A. Al-Saady
- 16 Effects of root exudates and pH on *Plasmodiophora brassicae* resting spore germination and infection of canola (*Brassica napus* L.) root hairs
A. Rashid, H.U. Ahmed, Q. Xiao, S.F. Hwang and S.E. Strelkov
- 24 Efficacy of 1,3-dichloropropene plus chloropicrin gelatin capsule formulation for the control of soilborne pests
Q.-X. Wang, D.-D. Yan, L.-G. Mao, T.-T. Ma, P.-F. Liu, Z.-F. Wu, Y. Li, M.-X. Guo and A.-C. Cao
- 29 Sublethal and transgenerational effects of chlorantraniliprole on biological traits of the diamondback moth, *Plutella xylostella* L.
L. Guo, N. Desneux, S. Sonoda, P. Liang, P. Han and X.-W. Gao
- 35 Resistance of olive cultivars to *Botryosphaeria dothidea*, causal agent of olive fruit rot in Montenegro
J. Latinović, A. Mazzaglia, N. Latinović, M. Ivanović and M.L. Gleason
- 41 The search for new natural herbicides – Strategic approaches for discovering fungal phytotoxins
E.V.V. Varejão, A.J. Demuner, L.C.A. Barbosa and R.W. Barreto
- 51 Strategies to manage weedy rice in Asia
B.S. Chauhan
- 57 Transgenic *Bt* corn varietal resistance against the Mexican rice borer, *Eoreuma loftini* (Dyar) (Lepidoptera: Crambidae) and implications to sugarcane
A.T. Showler, S.C. Cook and V. Abrigo

(contents continued from outside back cover)

- 63 Characteristics of droplets from single and twin jet air induction nozzles: A preliminary investigation
A. Vallet and C. Tinet
- 69 Evaluation of adjuvants for enhanced management of *Podosphaera xanthii* using potassium silicate and biocontrol agents
H.B. Tesfagiorgis and H.J. Annegarn
- 76 Evaluation of a fog cooling system for applying plant-protection products in a greenhouse tomato crop
J. Sánchez-Hermosilla, F. Páez, V.J. Rincón and Á.J. Callejón
- 82 Characterization of forty-four potato varieties for resistance to common scab, black scurf and silver scurf
V. Sedláková, J. Dejmalová, P. Doležal, E. Hausvater, P. Sedlák and P. Baštová
