

## CONTENTS

**AEHMS celebrates Member of the Order of Canada, awarded to Dr. Henry A. Regier**

### **Preface**

**Dr. Henry A. Regier C.M.: A tribute and felicitation by AEHMS**

*C. K. Minns, B. J. Shuter, and M. Munawar (Canada)*

1

### **Invited article**

**Perspectives on an ecosystem approach to ecogenic challenges in the Great Laurentian Basin and beyond**

*H. A. Regier (Canada)*

6

### **Contributed articles**

**Benthic marine biodiversity patterns across the United Kingdom and Ireland determined from recreational diver observations: A baseline for possible species range shifts induced by climate change**

*J. C. Bull, S. Mason, C. Wood, and A. R. G. Price (United Kingdom)*

20

**Temporal and spatial variability of benthic macrofauna communities in the Yangtze River estuary and adjacent area**

*L. Shou, J. Zeng, Y. Liao, T. Xu, A. Gao, Z. Chen, Q. Chen, and J. Yang (China)*

31

**Benthic foodweb of a salt marsh in an artificial lagoon, central Japan**

*K. Kon, Y. Hoshino, K. Kanou, D. Okazaki, S. Nakayama, and H. Kohno (Japan)*

40

**Abundance and trophodynamics of surface microbial loop populations in the northern Red Sea**

*H. A. El-Serehy, K. A. Al-Rasheid, S. Al-Quraishi, F. Al-Misned, and S. Al-Farraj (Saudi Arabia)*

51

**PCDD/F contamination of the Venice Lagoon: A history of industrial activities and past management choices**

*L. G. Bellucci, C. Mugnai, S. Giuliani, S. Romano, S. Albertazzi, and M. Frignani (Italy)*

62

*(Continued on inside back cover)*

<b>Bioconcentration of benzo[a]pyrene in <i>Chironomus riparius</i> and <i>Lumbriculus variegatus</i> in relation to dissolved organic matter and biotransformation</b>	70
<i>S. O. Agbo, J. Akkanen, M. T. Leppänen, and J. V. K. Kukkonen (Finland)</i>	
<b>Trace metals and rare earth elements in Rock Oyster <i>Saccostrea cucullata</i> along the east coast of Peninsular Malaysia</b>	78
<i>M. M. Fuad, N. A. M. Shazili, and M. Faridah (Malaysia)</i>	
<b>Endocrine disrupting chemicals in aquatic environments: A potential reason for organism extinction?</b>	88
<i>Y. Wang and J. Zhou (China)</i>	
<b>Groundwater quality and the potentiality in health risk assessment in Zhengzhou, China</b>	94
<i>Q. Cheng, H. Wu, Y. Wu, H. Li, X. Zhang, and W. Wang (China)</i>	
<b>Relinkage of the Mfolozi River to the St. Lucia estuarine system – urgent imperative for the long-term management of a Ramsar and World Heritage Site</b>	104
<i>A. K. Whitfield, G. C. Bate, T. Forbes, and R. H. Taylor (South Africa)</i>	
<b>Litter composition and source contribution for 80 beaches in Greece, Eastern Mediterranean: A nationwide voluntary clean-up campaign</b>	111
<i>S. Kordella, M. Geraga, G. Papatheodorou, E. Fakiris, and I. M. Mitropoulou (Greece)</i>	
<b>The achievement of water management objectives based on willingness to pay for a water service fee in tidal lowlands</b>	119
<i>M. Yazid, M. N. Shamsudin, K. A. Rahim, A. Radam, and A. Muda (Malaysia)</i>
