Volume 92, Number 4

May 2012

## ***Ecology, Biological Processes and Plant Interactions***

**Nitrogen and phosphorus effects on water use efficiency of spring wheat grown in a semi-arid region of the Canadian prairies**

R. Kröbel, C. A. Campbell, R. P. Zentner, R. Lemke, H. Steppuhn, R. L. Desjardins, and R. De Jong 573–587

## ***Composition and Chemical Processes***

**Retention and nitrification of injected anhydrous NH<sub>3</sub> as affected by soil pH**

M. B. Benke, T. B. Goh, R. Karamanos, N. Z. Lupwayi, and X. Hao 589–598

**Contributions of carbonates to soil CO<sub>2</sub> emissions**

R. Ramnarine, C. Wagner-Riddle, K. E. Dunfield, and R. P. Voroney 599–607

## ***Physical Processes and Interfaces***

**Solute transport in a hummocky landscape:**

**I. Two-dimensional redistribution of bromide**

S. O. Olatuyi, O. O. Akinremi, D. N. Flaten, and D. A. Lobb 609–629

**Solute transport in a hummocky landscape:**

**II. Vertical and seasonal redistribution of bromide and <sup>15</sup>N-labelled nitrate**

S. O. Olatuyi, O. O. Akinremi, and X. Hao 631–643

**Comparing SPAD and atLEAF values for chlorophyll assessment in crop species**

J. Zhu, N. Tremblay, and Y. Liang 645–648

## ***Genesis, Landscape Processes and Relationships***

**Factors controlling soil water storage in the hummocky landscape of the Prairie Pothole Region of North America**

A. Biswas, H. W. Chau, A. K. Bedard-Haughn, and B. C. Si 649–663

**Influence of tillage displaced soil on the productivity and yield components of barley in northwest Iran**

L. Nazmi, H. Asadi, R. Manukyan, and H. Naderi 665–672

## ***Contamination and Environmental Stewardship***

**Long-term effect of fresh and composted cattle manure on the size and nutrient composition of dry-sieved soil aggregates**

J. J. Miller, E. Bremer, B. W. Beasley, C. F. Drury, B. J. Zebarth, and F. J. Larney 673–683

## ***Management for Agricultural, Forestry and Urban Uses***

**Long-term grazing effects on grassland soil properties in southern British Columbia**

C. R. W. Evans, M. Krzic, K. Broersma, and D. J. Thompson 685–693
