

>> Research Reports

Cultivation Physiology

- 91** Optimum Heating Hour to Maintain Vegetative Growth and Inhibit Premature Inflorescence Initiation of Six-month and One-year-old *Phalaenopsis* Hybrids
| Seoung Kwang An, Yoon Jin Kim, and Ki Sun Kim
- 97** Relationships between Antioxidant Enzymes and Physiological Variations Occur during Ageing of Pepper Seeds
| Mustafa Demirkaya
- 103** Growth and Anthocyanin Concentration of *Perilla frutescens* var. *acuta* Kudo as Affected by Light Source and DIF under Controlled Environment
| Yoo Gyeong Park, Hye Jin Oh, and Byoung Ryong Jeong
- 109** Flowering and Fruiting of Day-neutral and Ever-bearing Strawberry Cultivars in High-elevation for Summer and Autumn Fruit Production in Korea
| Jiwei Ruan, Young Hun Lee, and Young Rog Yeoung
- 121** Expression of *DchSp17.7*, a Small Heat Shock Protein Gene in Carrot (*Daucus carota* L.)
| Hanseul Park, Eunhye Ko, Eunsun Jang, Sujin Park, Joohee Lee, and Yeh-Jin Ahn

Postharvest Technology

- 128** Influence of Temperature during Transport on Shelf-life Quality of Highbush Blueberries (*Vaccinium corymbosum* L. cvs. Bluetta, Duke)
| Hyang Lan Eum, Sun Chul Hong, Changhoo Chun, Il Sheob Shin, Byoung Yil Lee, Hak Ki Kim, and Sae Jin Hong

Genetics and Breeding

- 134** Inheritance of Resistance to Powdery Mildew in the Watermelon and Development of a Molecular Marker for Selecting Resistant Plants
| Kwang-Hwan Kim, Sung-Gyu Ahn, Ji-Hyun Hwang, Young-Mi Choi, Hyun-Shik Moon, and Young-Hoon Park
- 141** Microsatellite Analysis of *Rosa damascena* from Pakistan and Iran
| Amjad Farooq, Mahnaz Kiani, Muhammad Aslam Khan, Atif Riaz, Asif Ali Khan, Natalie Anderson, and David H. Byrne

- 148** Analyses of Genetic Diversity and Relationships in Four *Calanthe* Taxa Native to Korea Using AFLP Markers

| Sang Hoon Kim, Jong Suk Lee, Geung-Joo Lee, Jong Sun Kim, Bo-Keun Ha, Dong Sub Kim, Jin-Baek Kim, and Si-Yong Kang

Tissue Culture/Biotechnology

- 156** Anatomical Adaptations of the Xerophilous Medicinal Plant, *Capparis spinosa*, to Drought Conditions
| Lu Gan, Chunyu Zhang, Yongtai Yin, Zhiwei Lin, Yongwei Huang, Jun Xiang, Chunhua Fu, and Maoteng Li
- 162** In Vitro Androgenic Response of Minipaprika (*Capsicum annuum* L.) Genotypes in Different Culture Media
| Binod Prasad Luitel and Won Hee Kang
- 172** Production of Somatic Embryo and Transgenic Plants Derived from Breeding Lines of *Rosa hybrida* L.
| Su Young Lee, Jung Lim Lee, Jeong-Ho Kim, Jin Yong Ko, Seung Tae Kim, Eun Kyung Lee, Won Hee Kim, and O Hyeon Kwon
- 177** Elimination of *Chrysanthemum stunt viroid* (CSVd) from Meristem Tip Culture Combined with Prolonged Cold Treatment
| Wina Dian Savitri, Kyung Il Park, Su Min Jeon, Mi Young Chung, Jeung-Sul Han, and Chang Kil Kim

Others

- 183** Analysis of Phenolic Compounds in Chwinamul by HPLC/UV
| Hye Min Kim, Dong Gu Lee, Eun Ju Cho, Kyung Choi, Jajung Ku, Kwang-Woo Park, and Sanghyun Lee

>> Erratum

- 190** Comparative Responses of Bermudagrass and Seashore Paspalum Cultivars Commonly Used in Egypt to Combat Salinity Stress
| Mohamed Ahmed Shahba
