Genesis and Geography of Soils

Soils of the Northern Part of the Subpolar Urals: Morphology,
Physicochemical Properties, and Carbon and Nitrogen Pools

A. A. Dymov, E. V. Zhangurov, and V. V. Startsev 459

Soil Zonality of the Chukotka Upland

N. A. Karavaeva 468

Effect of Errors in Positioning the Sampling Points on the Assessment
of the Relationships between the Remote Sensing Data and the Soil Properties

V. P. Samsonova, Yu. L. Meshalkina, and Yu. N. Blagoveshchenskii 484

The Development of Chernozems on the Dniester–Prut Interfluvium in the Holocene

F. N. Lisetskii, P. V. Goleusov, and O. A. Chepelev 491

Soil Chemistry

Correlations between Different Acidity Forms in Amorphous Loamy
Soils of the Tundra and Taiga Zones

E. V. Shamrikova and T. A. Sokolova 505

Organic Matter and Biological Activity of Postagrogenic Soils in the Southern
Taiga Using the Example of Kostroma Oblast

A. S. Vladychenskii, V. M. Telesnina, K. A. Rumyantseva, and T. A. Chalaya 518

The Pool of Pedogenic Carbon in the Soils of Different Types
and Durations of Use as Croplands in the Forest-Steppe
of the Central Russian Upland

O. S. Khokhlova, Yu. G. Chendev, T. N. Myakshina, and V. A. Shishkov 530

Soil Physics

Mathematical Models of Some Soil Characteristics: Substantiation,
Analysis, and Using Features of Model Parameters

*E. V. Shein, A. M. Rusanov, E. Yu. Milanovskii,
D. D. Khaidapova, and E. I. Nikolaeva* 541

Dependence of the Aggregate Swelling Parameters in Soddy-Podzolic
Soils on Their Properties

V. D. Goncharov and K. G. Moiseev 548

An Application of PCA and Fuzzy C–Means to Delineate Management
Zones and Variability Analysis of Soil

Babankumar S. Bansod and O. P. Pandey 556

Soil Biology

Actinomycetes in Garden Soils of the City of Kirov

I. G. Shirokikh, E. S. Solov'eva, and T. Ya. Ashikhmina

565

Carbon Dioxide Emission from the Soil Surface in a Bilberry–Sphagnum
Pine Forest of the Middle Taiga

A. F. Osipov

572

Agricultural Chemistry and Soil Fertility

Effect of Soil Carbohydrates on Nutrient Availability in Natural Forests
and Cultivated Lands in Sri Lanka

R. R. Ratnayake, G. Seneviratne, and S. A. Kulasooriya

579

Comparison of Fine-grained Soils of the Kolsuz and Araplı Areas
in the Central Anatolia (Niğde, Turkey) in terms of Geotechnical Properties

O. Sivrikaya and S. Hakbilir

587

Discussion

Soil Horizon Designation: State of the Art, Problems, and Proposals

M. I. Gerasimova, I. I. Lebedeva, and N. B. Khitrov

599
