

Water Resources Management

Volume 27 · Number 9 · July 2013

Optimising Reliability: Portfolio Modeling of Contract Types for Retail Water Providers
R. Kidson · B. Haddad · H. Zheng · S. Kasower · R. Raucher 3209

Evaluating the Utility of IPCC AR4 GCMs for Hydrological Application in South Korea
T. Le · D.-H. Bae 3227

A Fuzzy Variable Least Core Game for Inter-basin Water Resources Allocation Under Uncertainty
K. Jafarzadegan · A. Abed-Elmdoust · R. Kerachian 3247

Application of Genetic Programming in Stage Hydrograph Routing of Open Channels
E. Fallah-Mehdipour · O. Bozorg Haddad · H. Orouji · M.A. Mariño 3261

An Integrated Groundwater Management Mode Based on Control Indexes of Groundwater Quantity and Level
F. Li · P. Feng · W. Zhang · T. Zhang 3273

Estimating Pumping Rates and Identifying Potential Recharge Zones for Groundwater Management in Multi-Aquifers System
H.-T. Lin · K.-Y. Ke · Y.-C. Tan · S.-C. Wu · G. Hsu · P.-C. Chen · S.-T. Fang 3293

Regression Kriging Analysis for Longitudinal Dispersion Coefficient
B. Tutmez · M. Yuceer 3307

Forecasting the Level of Reservoirs Using Multiple Input Fuzzification in ANFIS
N. Valizadeh · A. El-Shafie 3319

A Set of New Benchmark Optimization Problems for Water Resources Management
D.K. Karpouzos · K.L. Katsifarakis 3333

Post Audit Analysis of a Groundwater Level Prediction Model in Developed Semiconfined Aquifer System
Ž. Brkić · K. Urumović · M. Briški 3349

Management Strategy of Groundwater Resources and Recovery of Over-Extraction Drawdown Funnel in Huaibei City, China
B. Zhu 3365

Intelligent Systems in Optimizing Reservoir Operation Policy: A Review
Md. Shabbir Hossain · A. El-shafie 3387

Ownership, Investment Policies and Funding Choices of Italian Water Utilities: An Empirical Analysis
G. Romano · A. Guerrini · S. Vernizzi 3409

Optimization and Simulation Modelling for Managing the Problems of Water Resources
A. Singh · S.N. Panda 3421

Role of Land Use and Seasonal Factors in Water Quality Degradations

S. Carroll · A. Liu · L. Dawes · M. Hargreaves · A. Goonetilleke 3433

Using a Cognitive Mapping Approach to Frame the Perceptions of Water Users About Managing Water Resources: A Case Study in the Australian Capital Territory

S. ElSawah · A. Mclucas · J. Mazanov 3441

Support Vector Machines and Multilayer Perceptron Networks Used to Evaluate the Cyanotoxins Presence from Experimental Cyanobacteria Concentrations in the Trasona Reservoir (Northern Spain)

J.A. Vilán Vilán · J.R. Alonso Fernández · P.J. García Nieto · F. Sánchez Lasheras · F.J. de Cos Juez · C. Díaz Muñiz 3457

The Effects of Groundwater and Surface Water Use on Total Water Availability and Implications for Water Management: The Case of Lake Naivasha, Kenya

P.R. van Oel · D.W. Mulatu · V.O. Odongo · F.M. Meins · R.J. Hogeboom · R. Becht · A. Stein · J.O. Onyando · A. van der Veen 3477

A Modified SEBAL Modeling Approach for Estimating Crop Evapotranspiration in Semi-arid Conditions

G. Papadavid · D.G. Hadjimitsis · L. Toullos · S. Michaelides 3493

Improving Rainfall Forecasting Efficiency Using Modified Adaptive Neuro-Fuzzy Inference System (MANFIS)

S.A. Akrami · A. El-Shafie · O. Jaafar 3507
