

PLANT, SOIL AND ENVIRONMENT

Volume 59, No. 6

June 2013

CONTENTS

- Bordoloi L.J., Singh A.K., Manoj-Kumar, Patiram, Hazarika S.:
Evaluation of nitrogen availability indices and their relationship with plant response
on acidic soils of India 235
- Wang B., Shen H., Yang X., Guo T., Zhang B., Yan W.:
Effects of chitinase-transgenic (*McChit1*) tobacco on the rhizospheric microflora
and enzyme activities of the purple soil 241
- Liu S.L., Cao Z.H., Liu H.E.:
Effect of ryegrass (*Lolium multiflorum* L.) growth on degradation of phenanthrene
and enzyme activity in soil 247
- De Maria S., Puschenreiter M., Rivelli A.R.:
Cadmium accumulation and physiological response of sunflower plants to Cd
during the vegetative growing cycle 254
- Sperotto R.A., Ricachenevsky F.K., Waldow V. de A., Müller A.L.H., Dressler V.L., Fett J.P.:
Rice grain Fe, Mn and Zn accumulation: How important are flag leaves and seed number? 262
- Pavlovic M., Pavlovic V., Rozman C., Udovc A., Stajniko D., Wang D., Gavric M., Srecec S.:
Market value assessment of hops by modeling of weather attributes 267
- Jupa R., Baláž M., Svoboda P., Gloser V.:
Inherent variability in structural and functional traits of xylem among three hop varieties 273
- Guo Z., Wang D.Z.:
Long-term effects of returning wheat straw to croplands on soil compaction
and nutrient availability under conventional tillage 280
