

CONTENTS

The Editor's Field—Latin, Really?	201
<i>Vincent M. Russo</i>	
Pinching Can Increase Faba Bean Yield and Yield Characteristics	203
<i>J. A. Olfati and S. H. Malakouti</i>	
Genetic Diversity Analysis and DNA Fingerprinting of Elite Chilli Pepper Lines Using SSR Markers	207
<i>M. S. Dhaliwal, S. K. Jindal, A. K. Gaikwad, and Kuldeep Singh</i>	
Oxygen Amendment on Growth and Nitrogen Use Efficiency of Flooded Italian Basil	217
<i>Guodong Liu, Yuncong Li, Kati Migliaccio, Teresa Olczyk, and Ashok Alva</i>	
Biological Amendments on Growth, Nutritional Quality, and Yield of Celery	228
<i>Anju Tanwar, Kuldeep Yadav, Karishma Prasad, and Ashok Aggarwal</i>	
Lycopene Estimation in Tomato Lines Using Infrared Absorbance and Tomato Analyzer	240
<i>Dilip R. Panthee, Penelope Perkins-Veazie, Dan Randall, and Allan F. Brown</i>	
Estimates of Heterosis for Morphological and Flavor Attributes in Tomato	256
<i>R. Gul, H. Rahman, M. Tahir, M. Naeem, and A. Ghafoor</i>	
Floral Biology and Interspecific and Intergeneric Crossability of Teasle Gourd	263
<i>Abhishek Naik, Shirin Akhtar, Umesh Thapa, Arup Chattopadhyay, and Pranab Hazra</i>	
Irrigation, Mulches, and Fumigants on Tomato Performance in Sandy Soils	274
<i>Bielinski M. Santos</i>	

Relative Toxicity of Fenazaquin Against Two-Spotted Spider Mite on Okra	282
<i>S. Sangeetha and K. Ramaraju</i>	
Physiological and Reproductive Responses of Tomato and Pepper Transplants to Low-Temperature Conditioning	294
<i>Jamal Javanmardi, Majid Rahemi, and Marziyeh Nasirzadeh</i>
