

CONTENTS

EDITORIAL

- Winter Perspectives 1  
*Frederick C. Michel, Jr.*

RESEARCH

- Reducing Nitrogen Leaching from Agriculture: An Essential Step toward Protecting the Environment in High Rainfall Areas of Taiwan 2  
*Keshav Raj Adhikari and Zueng-Sang Chen*
- Use of Organic Enrichment as Additives in Coconut Coir Dust on Development of Tomato in Soilless Culture 16  
*S. Mokhtari, M. R. Ismail, H. Kausar, M. H. Musa, P. E. M. Wahab, Z. Berahim, M. H. Omar, and S. H. Habib*
- Transport of Residual Soluble Salts and Total Sulfur through Intact Soil Cores Amended with Fresh or Composted Beef Cattle Feedlot Manure for Nine Years 22  
*J. J. Miller, B. W. Beasley, and C. F. Drury*
- Removal of Glass Particles from Compost Mixtures at Laboratory and Pilot Scales 34  
*M. J. Francis, M. Rzechowicz, J. W. A. Charrois, and R. M. Pashley*
- Mass Transfer from Metallic Contaminants during a Three-Week Thermophilic Composting Experiment 47  
*Lixian Zhou, Daryl M. McCartney, Weixing Chen, Shouhai Yu, Salim Abboud, and Kristine M. Wichuk*
- Evaluating *Microdictyon umbilicatum* Bloom Biomass as a Compost Conditioner for Australian, Native Coastal Plants, *Rhagodia candoleana* and *Banksia integrifolia* 64  
*P. Winberg, C. de Mestre, and S. Willis*
