

REVIEW

- 535 **Amylase inhibitors and their biomedical applications** S. Jayaraj, S. Suresh and R.-K. Kadeppagari
- 543 **Starch-based biomaterials for wound-dressing applications** F. G. Torres, S. Commeaux and O. P. Troncoso
- 552 **From native to multifunctional starch-based excipients designed for direct compression formulation** I. Rashid, M. M. H. Al Omari and A. A. Badwan

RESEARCH ARTICLE

- 572 **Modification of starch by graft copolymerization: A drug delivery system tested for cephalexin antibiotic** M. E. Avval, P. N. Moghaddam and A. R. Fareghi
- 584 **Ascorbic acid microencapsulation by spray-drying in native and acid-modified starches from different botanical sources** H. M. Palma-Rodriguez, E. Agama-Acevedo, R. A. Gonzalez-Soto, E. J. Vernon-Carter, J. Alvarez-Ramirez and L. A. Bello-Perez
- 593 **Preparation, characterization, and properties of amylose-ibuprofen inclusion complexes** L. Yang, B. Zhang, J. Yi, J. Liang, Y. Liu and L.-M. Zhang
- 603 **Modified starch (cationized)-alginate beads containing aceclofenac: Formulation optimization using central composite design** J. Malakar, A. K. Nayak and A. Das
-
- 613 **Physicochemical properties of protease-treated rice flour** S. Dorglamud, P. Suwannaporn, T.-C. Huang and R. F. Tester
- 621 **Dual-frequency ultrasound effect on structure and properties of sweet potato starch** J. Zheng, Q. Li, A. Hu, L. Yang, J. Lu, X. Zhang and Q. Lin
- 628 **Effect of pH and soybean flour heat treatment on the texture and colour of fortified roasted shredded cassava roots (garri)** L. D. Tivana, P. Dejmeck and B. Bergenståhl

RESEARCH ARTICLE

- 637 **Structures of human salivary amylase hydrolysates from starch processed at two water concentrations** K. K. M. Nantanga, E. Bertoft and K. Seetharaman
- 645 **The effect of drying and whole grain content on the pasting, physicochemical and qualitative properties of pasta** R. West, L. Duizer and K. Seetharaman
- 653 **Characterization of free radicals mechanically and thermally induced in potato starch** K. Dyrek, J. Szymorńska, E. Wenda, E. Bidzińska and M. Walczak
- 660 **Synergic effect of exogenous microorganism combination on propionic and butyric acid formation during in vitro colonic fermentation of maize resistant starch** X.-H. Zhao and C.-L. Zhu
- 666 **Effect of starch and lignin on physico-chemical properties of phenol-starch resin and its resin core sand** L. Zhang, Y. Zheng, Y. Zhang and T. Lin
- 679 **Structure and digestibility of debranched and hydrothermally treated water yam starch** K. S. Trinh, S. J. Choi and T. W. Moon
- 686 **Preparation and characterization of high degree substituted sago (*Metroxylon sagu*) starch with propylene oxide** M. Aminian, A. M. Nafchi, M. Bolandi and A. K. Alias
- 694 **Influence of storage temperature and autoclaving cycles on slowly digestible and resistant starch (RS) formation from partially debranched rice starch** K. Y. Lee, S. Lee and H. G. Lee
- 702 **The effect of xanthan on short and long-term retrogradation of rice starch** M. Tang, Y. Hong, Z. Gu, Y. Zhang and X. Cai
-
- 709 **Differences in structures of starch hydrolysates using saliva from different individuals** K. K. M Nantanga, E. Chan, S. Suleman, E. Bertoft and K. Seetharaman
