

>> Review Report

Tissue Culture/Biotechnology

- 191** Physiological and Biochemical Analysis of Growth Abnormalities Associated with Plant Tissue Culture
| Barbara Ruffoni and Marco Savona

>> Research Reports

Cultivation Physiology

- 206** Variation of Major Glucosinolates in Different Varieties and Lines of Rocket Salad
| Jin-Hyuk Chun, Mariadhas Valan Arasu, Yong-Pyo Lim, and Sun-Ju Kim
- 214** Sugar and Organic Acid Contents of Day-neutral and Ever-bearing Strawberry Cultivars in High-elevation for Summer and Autumn Fruit Production in Korea
| Jiwei Ruan, Young Hun Lee, Sae Jin Hong, and Young Rog Yeoung
- 223** Inhibition of Inflorescence Initiation in Immature *Doritaenopsis* Queen Beer 'Mantefon' by Photoperiod and Temperature
| Seoung Kwang An, Yoon Jin Kim, and Ki Sun Kim
- 228** Gypsum Effects on Plant Growth, Nutrients, Ginsenosides, and Their Relationship in American Ginseng
| Jinwook Lee and Kenneth W. Mudge
- 236** Vegetative Growth and Flowering of *Dianthus*, *Zinnia*, and *Pelargonium* as Affected by Night Interruption at Different Timings
| Yu Jin Park, Yoon Jin Kim, and Ki Sun Kim
- 243** Phosphorus Deficiency Restricts Plant Growth but Induces Pigment Formation in the Flower Stalk of Chinese Kale
| Riyuan Chen, Shiwei Song, Xiuchun Li, Houcheng Liu, and Danfeng Huang
- 249** A Simple Method to Determine Amino Acid Leakage and Germination Capabilities from Single Radish (*Raphanus sativus* L.) and Chinese Cabbage (*Brassica rapa* ssp. *pekinensis*) Seeds
| Tai Gi Min and Ba Reun Hong

Genetics and Breeding

- 257** Assessment of Fruit Quality Variation in Doubled Haploids of Minipaprika (*Capsicum annuum* L.)
| Binod Prasad Luitel and Won Hee Kang
- 266** Sources of Resistance to Bacterial Wilt and Restorer-of-fertility Genotype for Cytoplasmic Male Sterility in *Capsicum* Pepper
| Khin Pa Pa Wai, Jaemoo Lee, Hwang-Sung Mo, and Byung-Soo Kim

Tissue Culture/Biotechnology

- 272** Transcriptional Analysis of *Dehydrin1* Genes Responsive to Dehydrating Stress in Grapevines
| Youn-Jung Choi, Youn Young Hur, Sung-Min Jung, Se-Hee Kim, Jung-Ho Noh, Seo-Jun Park, Kyo-Sun Park, and Hae-Keun Yun
- 280** Inhibition of Chrysanthemum Axillary Buds via Transformation with the Antisense Tomato *Lateral Suppressor* Gene is Season Dependent
| Yeun Joo Huh, Bong Hee Han, Sang Kun Park, Su Young Lee, Mi Jung Kil, and Chun Ho Pak

Others

- 288** Physicochemical Properties and Antioxidant Activity of Korean Cactus (*Opuntia humifusa*) Cladodes
| Hyun-Il Jun, Mi-Na Cha, Eun-In Yang, Dong Geun Choi, and Young-Soo Kim
