

Soil organic carbon pools under switchgrass grown as a bioenergy crop compared to other conventional crops F. G. DOU, F. M. HONS, W. R. OCUMPAUGH, J. C. READ, M. A. HUSSEY and J. P. MUIR	409
Application of visible/near-infrared spectra in modeling of soil total phosphorus HU Xue-Yu	417
Estimation of soil carbon input in France: An inverse modelling approach J. MEERSMANS, M. P. MARTIN, E. LACARCE, T. G. ORTON, S. DE BAETS, M. GOURRAT, N. P. A. SABY, J. WETTERLIND, A. BISPO, T. A. QUINE and D. ARROUAYS	422
Source apportionment of heavy metals in soils using multivariate statistics and geostatistics QU Ming-Kai, LI Wei-Dong, ZHANG Chuan-Rong, WANG Shan-Qin, YANG Yong and HE Li-Yuan	437
Distribution, morphology, and chemical composition of Fe-Mn nodules in Albeluvisols of the Carpathian Foothills, Poland W. SZYMAŃSKI and M. SKIBA	445
Combining solvent extraction and bioremediation for removing weathered petroleum from contaminated soil WU Guo-Zhong, F. COULON, YANG Yue-Wei, LI Hong and SUI Hong	455
Influence of accompanying anions on potassium retention and leaching in potato growing alluvial soils V. SHARMA and K. N. SHARMA	464
Seasonal variability in soil inorganic nitrogen across borders between woodland and farmland in the Songnen Plain of Northeast China LIN Chang-Cun, FU Yao, LIU Li, WANG Kun and WANG De-Li	472
Application of kinetic models in describing soil potassium release characteristics and their correlations with potassium extracted by chemical methods A. R. HOSSEINPUR and H. R. MOTAGHIAN	482
Influence of humic acid on interaction of ammonium and potassium ions on clay minerals ZHANG Wen-Zhao, CHEN Xiao-Qin, ZHOU Jian-Min, LIU Dai-Huan, WANG Huo-Yan and DU Chang-Wen ...	493
Soil pore characterization using free software and a portable optical microscope L. F. PIRES, F. S. BORGES, S. PASSONI and A. B. PEREIRA	503
Spatial and seasonal variations of heavy metals in wetland soils of the tidal flats in the Yangtze Estuary, China: Environmental implications HU Xue-Feng, DU Yan, FENG Jian-Wei, FANG Sheng-Qiong, GAO Xiao-Jiang and XU Shi-Yuan	511
Effects of earthworms and ryegrass on the removal of fluoranthene from soil JING Yong-Ping, LIU Man-Qiang, YIN Qi-Peng, LI Hui-Xin and HU Feng	523
Responses of runoff and soil erosion to vegetation removal and tillage on steep lands XU Qing-Xue, WANG Tian-Wei, CAI Chong-Fa, LI Zhao-Xia, SHI Zhi-Hua and FANG Rong-Jie	532
Effect of rotational tillage on soil aggregates, organic carbon and nitrogen in the Loess Plateau area of China HOU Xian-Qing, LI Rong, JIA Zhi-Kuan and HAN Qing-Fang	542
