

Recent and historical range shifts of two canopy-forming seaweeds in North Spain and the link with trends in sea surface temperature <i>L. Duarte, R.M. Viejo, B. Martínez, M. deCastro, M. Gómez-Gesteira and T. Gallardo</i> . . . . .	1
Interactions between ecosystem engineers: A native species indirectly facilitates a non-native one <i>M.C. Sueiro, E. Schwindt, M.M.(Pitu) Mendez and A. Bortolus</i> . . . . .	11
What do ecologists miss by not digging deep enough? Insights and methodological guidelines for assessing soil fertility status in ecological studies <i>B.J. Wigley, C. Coetsee, A.S. Hartshorn and W.J. Bond</i> . . . . .	17
Life history variation among geographically close populations of the toad-headed lizard ( <i>Phrynocephalus przewalskii</i> ): Exploring environmental and physiological associations <i>Z.-G. Zeng, J.-M. Zhao and B.-J. Sun</i> . . . . .	28
Responses of leafing phenology and photosynthesis to soil warming in forest-floor plants <i>R. Ishioka, O. Muller, T. Hiura and G. Kudo</i> . . . . .	34
Climate-change-related shifts in annual phenology of a temperate snake during the last 20 years <i>L. Rugiero, G. Milana, F. Petrozzi, M. Capula and L. Luiselli</i> . . . . .	42
Ants have a negative rather than a positive effect on extrafloral nectaried <i>Crotalaria pallida</i> performance <i>M.F. Pereira and J.R. Trigo</i> . . . . .	49
Morphology, nectar characteristics and avian pollinators in five Andean <i>Puya</i> species (Bromeliaceae) <i>C.T. Hornung-Leoni, P.L. González-Gómez and A.J. Troncoso</i> . . . . .	54
Oviposition-site selection by <i>Phyllomedusa sauvagii</i> (Anura: Hylidae): An arboreal nester inhabiting arid environments <i>C.G. García, J.N. Lescano and G.C. Leynaud</i> . . . . .	62
Changes in plant cover and functional traits induced by grazing in the arid Patagonian Monte <i>M.I. Bär Lamas, C. Larreguy, A.L. Carrera and M.B. Bertiller</i> . . . . .	66
Responses of litter invertebrate communities to litter manipulation in a Japanese conifer plantation <i>T. Yoshida, Y. Takito, M. Soga and N. Hijii</i> . . . . .	74
Habitat degradation may affect niche segregation patterns in lizards <i>N. Pelegrin, J.M. Chani, A.L. Echevarria and E.H. Bucher</i> . . . . .	82
