

Editorial: C. A. Madramootoo	245
The Irrigation Sector Shift from Construction to Modernization: What is Required for Success?: C. M. Burt	247
Advances and Challenges with Micro-Irrigation: C. A. Madramootoo and J. Morrison	255
Improved Efficiency of Irrigation Water Use: A South African Framework: F. B. Reinders, I. van der Stoep and G. R. Backeberg	262
Why Improving Irrigation Efficiency Increases Total Volume of Consumptive Use: B. A. Contor and R. G. Taylor	273
Water Harvesting From Fog and Air Humidity in the Warm and Coastal Regions in the South of Iran: R. Davtalab, A. Salamat and R. Oji	281
Agricultural/Urban/Environmental Water Sharing in the Western United States: Can Engineers Engage Social Science for Successful Solutions: M. M. Smith and S. W. Smith	289
Projecting Future Paddy Irrigation Demands in Korea: C. Sang-Ok	297
Subsurface Drainage in Khuzestan, Iran: Environmentally Revisited Criteria: M. Akram, A. Azari, A. Nahvi, Z. Bakhtiari and H. D. Safaee	306
Combination of Tradition and the Modern Age: New Methods for Efficient Water Management: K. Röttcher	315
Typifying Irrigated Areas To Support Policy Design and Implementation: the Case of the Guadalquivir River Basin: J. A. Gómez-Limón, M. Arriaza and A. J. Villanueva	322
Improving Water Productivity through Micro-Irrigation in Arid Punjab Regions: S. Kumar, R. Singh, M. J. Kaledhonkar, D. D. Nangare and A. Kumar	330
Analysis of Tracing Ability of Different Sized Particles in Drip Irrigation Emitters with Computational Fluid Dynamics: Y. Li, H. Liu, P. Yang and D. Wu	340
Simulation of Soil Water and Salinity Distribution Under Surface Drip Irrigation: T. Selim, R. Berndtsson and M. Persson	352
Optimal Development of Groundwater in a Well Command of Eastern India Using Integrated Simulation and Optimization Modelling: S. Mohanty, M. K. Jha, A. Kumar and P. S. Brahmanand	363
ICID: World Irrigation Forum: Giving Modernization of Irrigation Systems a Push: A. C. Tyagi	377
