Contents

vol. 68, n° 4, July-August 2013

- Necrotic leaf removal, a key component of integrated management of *Mycosphaerella* leaf spot diseases to improve the quality of banana: the case of Sigatoka disease.
M. CHILLET, F.P. CASTELAN, C. ABADIE, O. HUBERT, L. DE LAPEYRE DE BELLAIRE 271
- Productivity is negatively related to shoot growth across five mango cultivars in the seasonally wet-dry tropics of northern Australia.
P. LU, E.K. CHACKO, S.L. BITHHELL, H. SCHAPER, J. WIEBEL, S. COLE, W.J. MÜLLER 279
- Storage of 'Espada' mango fruits in modified atmosphere and cooling: effects on conservation.
J.A. GALLI, M.B.B. SOARES, A.L.M. MARTINS, J.C. GALLI 291
- Resource use and GHG emissions of eight tropical fruit species cultivated in Colombia.
S. GRAEFE, J. TAPASCO, A. GONZALEZ 303
- Effect of summer pruning on some fruit quality traits in Hayward kiwifruit.
G. GULLO, V. BRANCA, A. DATTOLA, R. ZAPPIA, P. INGLESE 315
- Relationships among postharvest ripening attributes and storage disorders in 'Honeycrisp' apple.
B. EHSANI-MOGHADDAM, J.R. DEËLL 323
- A survey on macro- and micro-elements, phenolic compounds, biological activity and use of *Morus* spp. (Moraceae).
D.A. KOSTIĆ, D.S. DIMITRIJEVIĆ, S.S. MITIĆ, M.N. MITIĆ, G.S. STOJANOVIĆ, A.V. ŽIVANOVIĆ 333
