

Review

- 379 N. AMELOOT, E. R. GRABER, F. G. A. VERHEIJEN AND S. DE NEVE
Interactions between biochar stability and soil organisms: review and research needs

Soil development, variability, characterization and development

- 391 J. D. PHILLIPS
Evaluating taxonomic adjacency as a source of soil map uncertainty
- 401 B. P. MARCHANT, R. A. VISCARRA ROSSEL AND R. WEBSTER
Fluctuations in method-of-moments variograms caused by clustered sampling and their elimination by declustering and residual maximum likelihood estimation
- 410 O. FERNÁNDEZ-UGALDE, P. BARRÉ, F. HUBERT, I. VIRTO, C. GIRARDIN, E. FERRAGE, L. CANER AND C. CHENU
Clay mineralogy differs qualitatively in aggregate-size classes: clay-mineral-based evidence for aggregate hierarchy in temperate soils
- 423 S. H. JIEN, C. W. PAI, Y. IIZUKA AND C. Y. CHIU
Pedogenic processes of placic and spodic horizons in subtropical subalpine forest soils with contrasting textures
- 435 G.-Z. HAN AND G.-L. ZHANG
Changes in magnetic properties and their pedogenetic implications for paddy soil chronosequences from different parent materials in south China

Carbon and organic matter

- 445 P. CAPRIEL
Trends in organic carbon and nitrogen contents in agricultural soils in Bavaria (south Germany) between 1986 and 2007
- 455 S. J. CHAPMAN, J. S. BELL, C. D. CAMPBELL, G. HUDSON, A. LILLY, A. J. NOLAN, A. H. J. ROBERTSON, J. M. POTTS AND W. TOWERS
Comparison of soil carbon stocks in Scottish soils between 1978 and 2009
- 466 A. NOVARA, L. GRISTINA, Y. KUZYAKOV, C. SCHILLACI, V. A. LAUDICINA AND T. LA MANTIA
Turnover and availability of soil organic carbon under different Mediterranean land-uses as estimated by ^{13}C natural abundance
- 476 A. HANKE, C. CERLI, J. MUHR, W. BORKEN AND K. KALBITZ
Redox control on carbon mineralization and dissolved organic matter along a chronosequence of paddy soils
- 488 Y. M. AWAD, E. BLAGODATSKAYA, Y. S. OK AND Y. KUZYAKOV
Effects of polyacrylamide, biopolymer and biochar on the decomposition of ^{14}C -labelled maize residues and on their stabilization in soil aggregates

Continues on the inside back cover

Continued from outside back cover

Biological interactions

500 J. JIN, G. H. WANG, J. D. LIU, Z. H. YU, X. B. LIU AND S. J. HERBERT

The fate of soyabean photosynthetic carbon varies in Mollisols differing in organic carbon

508 P. MAZZEI AND A. PICCOLO

Reduced activity of β -glucosidase resulting from host-guest interactions with dissolved fulvic acids as revealed by NMR spectroscopy

Chemical processes and functions

516 F. PARENT, C. PLAIN, D. EPRON, M. MAIER AND B. LONGDOZ

A new method for continuously measuring the $\delta^{13}\text{C}$ of soil CO_2 concentrations at different depths by laser spectrometry

526 E. R. MARZOUK, S. R. CHENERY AND S. D. YOUNG

Measuring reactive metal in soil: a comparison of multi-element isotopic dilution and chemical extraction

537 S. M. PALMER, J. M. CLARK, P. J. CHAPMAN, G. M. F. VAN DER HEIJDEN AND S. H. BOTTRELL

Effects of acid sulphate on DOC release in mineral soils: the influence of SO_4^{2-} retention and Al release

545 Book reviews

A summary of the Instructions to Authors is printed from time-to-time inside the back cover of the journal.
