Research reports

Relationship of cravings with weight loss and hunger. Results from a 6 month worksite weight loss intervention P. Batra, S.K. Das, T. Salinardi, L. Robinson, E. Saltzman, T. Scott, A.G. Pittas and S.B. Roberts	1–7
Parental food involvement predicts parent and child intakes of fruits and vegetables H. Ohly, J. Pealing, A.K.M. Hayter, C. Pettinger, H. Plkhart, R.G. Watt and G. Rees	8–14
Associations between parental feeding practices and child vegetable consumption. Mediation by child cognitions? E.L. Melbye, T. Øgaard and N.C. Øverby	23–30
Portion size variably affects food intake of 6-year-old and 4-year-old children in Kunming, China L. Smith, K. Conroy, H. Wen, L. Rui and D. Humphries	31–38
Effects of dietary fatty acid composition from a high fat meal on satiety A. Kozimor, H. Chang and J.A. Cooper	39–45
Dissection of appetitive conditioning. Does impulsivity play a role? H. Papachristou, C. Nederkoorn, S. Beunen and A. Jansen	46–53
Different subtypes of impulsivity differentiate uncontrolled eating and dietary restraint M.A. Leitch, M.J. Morgan and M.R. Yeomans	54–63
Family meal traditions. Comparing reported childhood food habits to current food habits among university students C.J.S. De Backer	64–70
Food neophobia, nanotechnology and satisfaction with life B. Schnettler, G. Crisóstomo, J. Sepúlveda, M. Mora, G. Lobos, H. Miranda and K.G. Grunert	71–79
Using student opinion and design inputs to develop an informed university foodservice menu C. Feldman, H. Harwell and J. Brusca	80–88
Dimensions of vegetable parenting practices among preschoolers T. Baranowski, T.-A. Chen, T. O'Connor, S. Hughes, A. Beltran, L. Frankel, C. Diep and J.C. Baranowski	89–93
Effect of duck meat consumption on thyroid hormone concentrations and energy metabolism of Sprague–Dawley rats X. Feng, L. Chen, S. Zhuang, C. Li, Z. Yan, X. Xu and G. Zhou	94–101
Using a smaller dining plate does not suppress food intake from a buffet lunch meal in overweight, unrestrained women W. Yip, K.R. Wiessing, S. Budgett and S.D. Poppitt	102–107
Screening for feeding disorders. Creating critical values using the behavioural pediatrics feeding assessment scale T.M. Dovey, C. Jordan, V.K. Aldridge and C.I. Martin	108–113
The moderating role of regulatory focus on the social modeling of food intake A. Florack, J. Palcu and M. Friese	114–122
The effects of multivitamin supplementation on mood and general well-being in healthy young adults. A laboratory and at-home mobile phone assessment A. Pipingas, D.A. Camfield, C. Stough, K.H.M. Cox, E. Fogg, B. Tiplady, J. Sarris, D.J. White, A. Sali, M.A. Wetherell and A.B. Scholey	123–136
The influence of ethical values and food choice motivations on intentions to purchase sustainably sourced foods K. Dowd and K.J. Burke	137–144
The four undergraduate years. Changes in weight, eating attitudes, and depression L. Girz, J. Polivy, V. Provencher, M.G. Wintre, M.W. Pratt, S. Mark Pancer, S. Birnie-Lefcovitch and G.R. Adams	145–150
Stress eating and health. Findings from MIDUS, a national study of US adults V. Tsenkova, J.M. Boylan and C. Ryff	151–155
“Sometimes they’ll tell me what they want”: Family and inter-generational food preferences in the food decisions of Singaporean women S. Ferzacca, N. Naidoo, M.C. Wang, G. Reddy and R.M. van Dam	156–167

Aerobic training (AT) is more effective than aerobic plus resistance training (AT + RT) to improve anorexigenic/orexigenic factors in obese adolescents J. Carnier, M.T.d. Mello, C. Ackel-DElia, F.C. Corgosinho, R.M. da Silveira Campos, P. de Lima Sanches, D.C.L. Masquio, C.R. Bueno Júnior, A.d.P. Ganen, A.C. Martins, D.A. Caranti, L. Tock, A.P.G. Clemente, S. Tufik and A.R. Dâmaso	168–173
The effect of learning climate on snack consumption and ego depletion among undergraduate students C. Magaraggia, J.A. Dimmock and B. Jackson	174–179
Agreement between paper and pen visual analogue scales and a wristwatch-based electronic appetite rating system (PRO-Diary©), for continuous monitoring of free-living subjective appetite sensations in 7–10 year old children P.L.S. Rumbold, C.J. Dodd-Reynolds and E. Stevenson	180–185
Contextual fear cues inhibit eating in food-deprived male and female rats C.J. Reppucci, M. Kuthyar and G.D. Petrovich	186–195
In control of variety. High self-control reduces the effect of variety on food consumption K.L. Haws and J.P. Redden	196–203
Theoretical paper	
The Eating Identity Type Inventory (EITI). Development and associations with diet C.E. Blake, B.A. Bell, D.A. Freedman, N. Colabianchi and A.D. Liese	15–22
