

Special Profile: The UK National Ecosystem Assessment

- 807 **EDITORIAL:** Ecological science for ecosystem services and the stewardship of Natural Capital
R. S. Hails and S. J. Ormerod
- 812 **REVIEW:** The role of ecosystems and their management in regulating climate, and soil, water and air quality
P. Smith, M. R. Ashmore, H. I. J. Black, P. J. Burgess, C. D. Evans, T. A. Quine, A. M. Thomson, K. Hicks and H. G. Orr
- 830 **REVIEW:** Managing urban ecosystems for goods and services
K. J. Gaston, M. L. Ávila-Jiménez and J. L. Edmondson
- 841 Mapping ecosystem service and biodiversity changes over 70 years in a rural English county
M. Jiang, J. M. Bullock and D. A. P. Hooftman
- 851 **REVIEW:** Nutrient stripping: the global disparity between food security and soil nutrient stocks
D. L. Jones, P. Cross, P. J. A. Withers, T. H. DeLuca, D. A. Robinson, R. S. Quilliam, I. M. Harris, D. R. Chadwick and G. Edwards-Jones
- 863 **PRACTITIONER'S PERSPECTIVE:** Sustainable forest management in a time of ecosystem services frameworks: common ground and consequences
C. P. Quine, S. A. Bailey and K. Watts

Population modelling

- 868 **REVIEW:** Towards a systems approach for understanding honeybee decline: a stocktaking and synthesis of existing models
M. A. Becher, J. L. Osborne, P. Thorbek, P. J. Kennedy and V. Grimm
- 881 Modelling the effect of landscape heterogeneity on the efficacy of vaccination for wildlife infectious disease control
E. E. Rees, B. A. Pond, R. R. Tinline and D. Bélanger
- 892 Multiscale, presence-only habitat suitability models: fine-resolution maps for eight bat species
C. Bellamy, C. Scott and J. Altringham

Environmental impacts

- 902 Estimation of bird and bat mortality at wind-power farms with superpopulation models
G. Péron, J. E. Hines, J. D. Nichols, W. L. Kendall, K. A. Peters and D. S. Mizrahi
- 912 Reproductive failure of a human-tolerant species, the American kestrel, is associated with stress and human disturbance
E. H. Strasser and J. A. Heath
- 920 A slippery slope: logging alters mass–abundance scaling in ecological communities
U. Srinivasan
- 929 Interactive effects of temporal and spatial fire characteristics on the population dynamics of a fire-dependent Cypress species
S. Rodríguez-Buriticá and K. Suding
- 939 Frost hardness vs. growth performance in trembling aspen: an experimental test of assisted migration
S. G. Schreiber, C. Ding, A. Hamann, U. G. Hacke, B. R. Thomas and J. S. Brouard

Conservation

- 950 Conservation implications of song divergence between source and translocated populations of the North Island Kōkako
S. V. Valderrama, L. E. Molles, J. R. Waas and H. Slabbekoorn
- 961 Using multiple data sources provides density estimates for endangered Florida panther
R. Sollmann, B. Gardner, R. B. Chandler, D. B. Shindle, D. P. Onorato, J. A. Royle and A. F. O'Connell
- 969 Do protected areas benefit freshwater species? A broad-scale assessment for fish in Australia's Murray–Darling Basin
B. C. Chessman

Ecosystem services

- 977 **REVIEW:** An overview of the environmental risks posed by neonicotinoid insecticides
D. Goulson
- 988 Does it make economic sense to restore rivers for their ecosystem services?
V. Acuña, J. R. Díez, L. Flores, M. Meleason and A. Elosegi
- 998 Impacts of water level fluctuation on mesotrophic rich fens: acidification vs. eutrophication
C. Cusell, L. P. M. Lamers, G. van Wirdum and A. Kooijman

Habitat management

- 1010 Does lake habitat alteration and land-use pressure homogenize European littoral macroinvertebrate communities?
E. McGoff, A. G. Solimini, M. T. Pusch, T. Jurca and L. Sandin
- 1019 Nonlinear variation of stream–forest linkage along a stream-size gradient: an assessment using biogeochemical proxies of in-stream fine particulate organic matter
T. Sakamaki and J. S. Richardson
- 1028 Grazing dampens the positive effects of shrub encroachment on ecosystem functions in a semi-arid woodland
D. J. Eldridge, S. Soliveres, M. A. Bowker and J. Val
- 1039 Conditions favouring *Bromus tectorum* dominance of endangered sagebrush steppe ecosystems
M. D. Reisner, J. B. Grace, D. A. Pyke and P. S. Doescher

Marine management

- 1050 The riddle of the sands: how population dynamics explains causes of high bivalve mortality
R. Callaway, D. Burdon, A. Deasey, K. Mazik and M. Elliott

1060 **EDITOR'S CHOICE:** Evaluating marine spatial closures with conflicting fisheries and conservation objectives
C. M. Dichmont, N. Ellis, R. H. Bustamante, R. Deng, S. Tickell, R. Pascual, H. Lozano-Montes and S. Griffiths

- 1071 Seabirds maintain offspring provisioning rate despite fluctuations in prey abundance: a multi-species functional response for guillemots in the North Sea
S. Smout, A. Rindorf, S. Wanless, F. Daunt, M. P. Harris and J. Matthiopoulos
