

CONTENTS

Articles

- 485 Genetic parameters for natural antibody isotype titers in milk of Dutch Holstein-Friesians
S Wijga, H Bovenhuis, J W M Bastiaansen, J A M van Arendonk, T C W Ploegaert, E Tijhaar, J J van der Poel
- 493 Genes involved in muscle lipid composition in 15 European *Bos taurus* breeds
S Dunner, N Sevane, D Garcia, H Levéziel, J L Williams, B Mangin, A Valentini and the GeMQual Consortium
- 502 A genome-wide association study to detect genetic variation for postpartum dysgalactia syndrome in five commercial pig breeding lines
R Preissler, J Tetens, K Reiners, H Looft, N Kemper
- 509 Genetic diversity of Vietnamese domestic chicken populations as decision-making support for conservation strategies
M H Pham, C Berthouly-Salazar, X H Tran, W H Chang, R P M A Crooijmans, D Y Lin, V T Hoang, Y P Lee, M Tixier-Boichard, C F Chen
- 522 Insights into the genetic history of Green-legged Partridge-like fowl: mtDNA and genome-wide SNP analysis
M Siwek, D Wragg, A Slawińska, M Malek, O Hanotte, J M Mwacharo
- 533 Development of the first standardised panel of two new microsatellite multiplex PCRs for gilthead seabream (*Sparus aurata* L.)
I Lee-Montero, A Navarro, Y Borrell, M García-Celdrán, N Martín, D Negrín-Báez, G Blanco, E Armero, C Berbel, M J Zamorano, J J Sánchez, A Estévez, G Ramis, M Manchado, J M Afonso
- 547 QTL and association analysis for skin and fibre pigmentation in sheep provides evidence of a major causative mutation and epistatic effects
H W Raadsma, E Jonas, M R Fleet, K Fullard, J Gongora, C R Cavanagh, I Tammen, P C Thomson
- 560 Skeletal muscle tissue transcriptome differences in lean and obese female beagle dogs
R W Grant, B M Vester Boler, T K Ridge, T K Graves, K S Swanson
- 569 Simple recessive mutation in *ENAM* is associated with amelogenesis imperfecta in Italian Greyhounds
B Gandolfi, H Liu, L Griffioen, N C Pedersen
- Short Communications
- 579 Detection of signatures of selective sweeps in the Blonde d'Aquitaine cattle breed
S Boitard, D Rocha
- 584 A novel c.-274C>G polymorphism in bovine *SIRT1* gene contributes to diminished promoter activity and is associated with increased body size
M-x Li, X-m Sun, L-z Zhang, J Wang, Y-z Huang, Y-j Sun, S-r Hu, X-y Lan, C-z Lei, H Chen
- 588 Novel polymorphisms in ovine *prion protein* gene
H Meydan, M M Özkan, M A Yildiz, W Goldmann
- 592 Effects of *hydroxy-delta-5-steroid dehydrogenase, 3 beta- and steroid delta-isomerase 1* polymorphisms on fat androstenone level and gene expression in Duroc pigs
J M Kim, J H Ahn, K S Lim, E A Lee, T Chun, K C Hong
- 596 Using molecular markers for pedigree reconstruction of the greater amberjack (*Seriola dumerili*) in the absence of parental information
D Rodriguez-Barreto, S Consuegra, S Jerez, J R Cejas, V Martin, A Lorenzo

601 The *ACACA* gene is a potential candidate gene for fat content in sheep milk
B Moioli, M C Scatà, G De Matteis, G Annicchiarico, G Catillo, F Napolitano

Brief Notes

604 Dopamine transporter single nucleotide polymorphisms (SNPs) in Belgian Malinois dogs
L Lit, J M Belanger, D Boehm, N Lybarger, A M Oberbauer

605 Spotted Weimaraner dog due to *de novo* *KIT* mutation
W M Gerding, D A Akkad, J T Epplen

606 Sex identification of dog by PCR based on the differences in the *AMELX* and *AMELY* genes
S Yan, C Bai, Y Li, Y Li, J Hou, Z Zhao, W Han

607 Elimination of *keratin 71* as candidate for hairlessness in Don Sphynx cats
C Dierks, S Lehner, U Philipp, O Distl
