

Soil Use and Management

Soil nutrient management

- 297 N. GLÆSNER, C. KJAERGAARD, G. H. RUBÆK & J. MAGID
Relation between soil P test values and mobilization of dissolved and particulate P from the plough layer of typical Danish soils from a long-term field experiment with applied P fertilizers
- 306 M. M. MORALES, N. COMERFORD, I. A. GUERRINI, N. P. S. FALCÃO & J. B. REEVES
Sorption and desorption of phosphate on biochar and biochar-soil mixtures
- 315 M. M. IBRAHIM, R. T. EL-BESHESHY, N. R. KAMH & A. I. ABOU-AMER
Effect of NPK and biofertilizer on date palm trees grown in Siwa Oasis, Egypt
- 322 M. SHAHID, A. K. NAYAK, A. K. SHUKLA, R. TRIPATHI, A. KUMAR, S. MOHANTY, P. BHATTACHARYYA, R. RAJA & B. B. PANDA
Long-term effects of fertilizer and manure applications on soil quality and yields in a sub-humid tropical rice-rice system

Significance and management of soil organic matter

- 333 K. JEGAJEEVAGAN, S. SLEUTEL, N. AMELOOT, M. A. KADER & S. DE NEVE
Organic matter fractions and N mineralization in vegetable-cropped sandy soils
- 344 H. Y. SUN, C. X. WANG, X. D. WANG & R. M. REES
Changes in soil organic carbon and its chemical fractions under different tillage practices on loess soils of the Guanzhong Plain in north-west China
- 354 A. F. WICK, W. L. DANIELS, Z. W. ORNDORFF & M. M. ALLEY
Organic matter accumulation post-mineral sands mining

Impact of land management on soils

- 365 J. H. ZHANG & F. C. LI
Soil redistribution and organic carbon accumulation under long-term (29 years) upslope tillage systems
- 374 A. FRANKL, M. JACOB, M. HAILE, J. POESEN, J. DECKERS & J. NYSSSEN
The effect of rainfall on spatio-temporal variability in cropping systems and duration of crop cover in the Northern Ethiopian Highlands
- 384 M. A. MOJID & G. C. L. WYSEURE
Implications of municipal wastewater irrigation on soil health from a study in Bangladesh

Short Communication

- 397 M. R. YAGÜE & A. D. BOSCH-SERRA
Slurry field management and ammonia emissions under Mediterranean conditions

Soil physical properties and their management

- 401 N. BOTTINELLI, S. MENASSERI-AUBRY, D. CLUZEAU & V. HALLAIRE
Response of soil structure and hydraulic conductivity to reduced tillage and animal manure in a temperate loamy soil
- 410 K. RASA & R. HORN
Structure and hydraulic properties of the boreal clay soil under differently managed buffer zones
- 419 A. KEREBEL, R. CASSIDY, P. JORDAN & N. M. HOLDEN
Soil Moisture Deficit as a predictor of the trend in soil water status of grass fields

Assessment and degradation of soils

- 432 G. J. GREALISH & R. W. FITZPATRICK
Acid sulphate soil characterization in Negara Brunei Darussalam: a case study to inform management decisions
- 445 Y. GUO, Z. SHI, H. Y. LI & J. TRIANTAFILIS
Application of digital soil mapping methods for identifying salinity management classes based on a study on coastal central China
- 457 M. PAUL, C. P. CATTERALL & P. C. POLLARD
Effects of spatial heterogeneity and subsample pooling on the measurement of abiotic and biotic soil properties in rainforest, pasture and reforested sites

Book Reviews
