CONTENTS

ORIGINAL ARTICLES

- 121 Genetic analysis of teat number and litter traits in pigs
N. Lundeheim, H. Chalkias and L. Rydhmer
- 126 A prediction equation for enteric methane emission from dairy cows for use in NorFor
N.I. Nielsen, H. Volden, M. Åkerlind, M. Brask, A.L.F. Hellwing, T. Storlien and J. Bertilsson
- 131 Effects of morphological fractions on estimated milk yields in forage maize depending on growing site and plant maturity
Z. Mussadiq, A.-M. Gustavsson, P. Geladi, C. Swensson and M. Hetta
- 143 Effects of feeding bamboo vinegar and acidifier as an antibiotic substitute on the growth performance and intestinal bacterial communities of weaned piglets
H.F. Wang, K. Gao, C. Wang, W.M. Zhang and J.X. Liu
- 151 Growth and gut health in chickens on diets varying in fatty acid composition and selenium content
N.F. Nyquist, Å. Krogdahl, M. Penn, M. Kaldhusdahl, M. Thomassen and A. Haug
- 163 Biological evaluation of the protein nutritional value in the diets of rats based on cereals and the yeast *Yarrowia lipolytica* growing on industrial glycerol
B. Michalik, E. Jacyno, R. Lubowicki and W. Biel
