

The impact of arbuscular mycorrhizal fungi on plant growth following herbivory: A search for pattern <i>V.A. Borowicz</i> .....	1
Distribution patterns of <i>Batrachium</i> communities in Mediterranean hard waters <i>A. Lumbreras, C. Pardo and J.A. Molina</i> .....	10
Interspecific competition influences the organization of a diverse sessile insect community <i>T. Cornelissen, C.D. de Carvalho Guimarães, J.P. Rodrigues Viana and B. Silva</i> .....	15
Management type affects composition and facilitative processes in altoandine dry grassland <i>A. Catorci, S. Cesaretti, J.L. Velasquez, S. Burrascano and H. Zeballos</i> .....	19
Thriving at the limit: Differential reproductive performance in range-edge populations of a Mediterranean sclerophyll ( <i>Olea europaea</i> ) <i>C. Granado-Yela, L. Balaguer, C. García-Verdugo, K. Carrillo and M. Méndez</i> .....	29
The presence of root-feeding nematodes – Not AMF – Affects an herbivore dispersal strategy <i>A. De Roissart, E.I. Peña, L. Van Oyen, T. Van Leeuwen, D.J. Ballhorn and D. Bonte</i> .....	38
Resources determine frugivore assemblages and fruit removal along an elevational gradient <i>A. Aparicio, D.G. Berens, J. Müller and N. Farwig</i> .....	45
Lost and found: Short-term dynamics of the flora on 100 small islands in the White Sea <i>A. Shipunov, P. Volkova, L. Abramova and P. Borisova</i> .....	50
Left–right asymmetries and shape analysis on <i>Ceroglossus chilensis</i> (Coleoptera: Carabidae) <i>R. Bravi and H.A. Benítez</i> .....	57
