

JOURNAL OF NUTRITIONAL SCIENCE AND VITAMINOLOGY

Vol 59, No 6, December 2013

CONTENTS

Review

- ABU EL MAATY MA, GAD MZ: Vitamin D Deficiency and Cardiovascular Disease: Potential Mechanisms and Novel Perspectives. 479–488

Regular Paper

- AMANO A, SATO Y, KISHIMOTO Y, TAKAHASHI K, HANDA S, AIGAKI T, MARUYAMA N and ISHIGAMI A: Effects of Ascorbic Acid Deficiency on Protein and Lipid Oxidation in Livers from SMP30/GNL Knockout Mice. 489–495
- KAIO DJ, RONDÓ PHC, SOUZA JMP, FIRMINO AV, LUZIA LA and SEGURADO AA: Vitamin A and Beta-Carotene Concentrations in Adults with HIV/AIDS on Highly Active Antiretroviral Therapy. 496–502
- MIYAKE K, AKIMOTO T, KUSAKABE M, SATO W, YAMADA A, YAMAWAKI H, KODAMA Y, SHINPUKU M, NAGOYA H, SHINDO T, UEKI N, KUSUNOKI M, KAWAGOE T, FUTAGAMI S, TSUKUI T and SAKAMOTO C: Water-Soluble Vitamin Deficiencies in Complicated Peptic Ulcer Patients Soon after Ulcer Onset in Japan. 503–508
- SHIBATA K, INOMOTO K, NAKATA C and FUKUWATARI T: Pantothenic Acid Deficiency May Increase Urinary Excretion of 2-Oxo Acids and Nicotinamide Catabolites in Rats. 509–515
- WAKAMATSU J, TAKABAYASHI N, EZOE M, HASEGAWA T, FUJIMURA T, TAKAHATA Y, MORIMATSU F and NISHIMURA T: Postprandial Thermic Effect of Chicken Involves Thyroid Hormones and Hepatic Energy Metabolism in Rats. 516–525
- YAMAZAKI J, MOCHIZUKI K, MIYAUCHI R, ICHIKAWA Y and GODA T: Circulating Interleukin-1 β Concentrations Are Independently-Positively Associated with γ -Glutamyltransferase Activity within the Normal Range in Middle-Aged Apparently Healthy Japanese Women. 526–532
- SHIBATA K, IMAI S, NAKATA C and FUKUWATARI T: The Effects of Glycine, L-Threonine, and L-Cystine Supplementation to a 9% Casein Diet on the Conversions of L-Tryptophan to Nicotinamide and to Serotonin in Rats. 533–540
- UCHIYAMA Y, SUZUKI T, MOCHIZUKI K and GODA T: Dietary Supplementation with a Low Dose of (–)-Epigallocatechin-3-Gallate Reduces Pro-Inflammatory Responses in Peripheral Leukocytes of Non-Obese Type 2 Diabetic GK Rats. 541–547

Note

- KANOUCHI H: Low Pyridoxine Concentrations Enhance Lipopolysaccharide-Stimulated Gene Expression of Cyclooxygenase-2 and Inducible Nitric Oxide Synthase in RAW264.7 Cells. 548–551
- HANAI M and ESASHI T: Comparison of the Effects of Dietary Protein on Sexual Organ Development of Male Mice and Rats Kept under Constant Darkness. 552–559
- TAKEMOTO S, YAMAMOTO A, TOMONAGA S, FUNABA M and MATSUI T: Magnesium Deficiency Induces Emergence of Mast Cells in the Liver of Rats. 560–563
- KARASAWA K, SUGIURA Y, KOJIMA M, UZUHASHI Y and OTANI H: Fermented Soybean Powder with Rice Mold in the Absence of Salt Stimulates the Cellular Immune System and Suppresses the Humoral Immune Response in Mice. 564–569
- MASUDA A, TAKAHASHI C, INAI M, MIURA Y and MASUDA T: Chemical Evidence for Potent Xanthine Oxidase Inhibitory Activity of *Glechoma hederacea* var. *grandis* Leaves (Kakidoushi-Cha). 570–575

Report

- TSUBOTA-UTSUGI M, NAKADE M, IMAI E, TSUBOYAMA-KASAOKA N, NOZUE M, UMEGAKI K, YOSHIZAWA T, OKUDA N, NISHI N and TAKIMOTO H: Distribution of Vitamin E Intake among Japanese Dietary Supplement and Fortified Food Users: A Secondary Analysis from the National Health and Nutrition Survey, 2003–2009. 576–583
- TSUBOYAMA-KASAOKA N, TAKIZAWA A, TSUBOTA-UTSUGI M, NAKADE M, IMAI E, KONDO A, YOSHIDA K, OKUDA N, NISHI N and TAKIMOTO H: Dietary Intake of Nutrients with Adequate Intake Values in the Dietary Reference Intakes for Japanese. 584–595

- Contents of Volume 59. 596–602
- Index to the Authors of Volume 59. 603–610
- Index to the Key Words of Volume 59. 611–614
