OPINION & COMMENT

1004 Correspondence: **Advanced flood risk analysis required**

1005 Correspondence: **Emissions from Amazonian dams**

1006 Commentary: **Challenges for New Zealand's carbon market**

Luis Mundaca and Jessika Luth Richter

1008 Commentary: **Carbon tax needs thresholds to reach its full potential**

John C. V. Pezzey and Frank Jotzo

FEATURE

1012 **Snapshot: Public support**

Bronwyn Wake

INTERVIEW

1013 **State of the science**

Interview with Thomas Stocker

ANALYSIS

1015 **Market Watch: A Calderónian commission**

Anna Petherick

RESEARCH HIGHLIGHTS

1017 **Our choice from the recent literature**

NEWS & VIEWS

1018 **Projection and prediction: Local noise and global confidence**

Markus G. Donat

1019 **Biodiversity: Strategy conservation**

Michael Dunlop

PERSPECTIVE

1021 **The role of short-lived climate pollutants in meeting temperature goals**

Niel H. A. Bowerman, David J. Frame, Chris Huntingford, Jason A. Lowe, Stephen M. Smith and Myles R. Allen

LETTERS

1025 **Intra- and intergenerational discounting in the climate game**

Jennifer Jacquet, Kristin Hagel, Christoph Hauert, Jochem Marotzke, Torsten Röhl and Manfred Milinski

1029 **Water-CO₂ trade-offs in electricity generation planning**

Mort Webster, Pearl Donohoo and Bryan Palmintier

1033 **Robust spatially aggregated projections of climate extremes**

E. M. Fischer, U. Beyerle and R. Knutti

→N&V p1018

1039 Hybridization may facilitate *in situ* survival of endemic species through periods of climate change

Matthias Becker, Nicole Gruenheit, Mike Steel, Claudia Voelckel, Oliver Deusch, Peter B. Heenan, Patricia A. McLenachan, Olga Kardailsky, Jessica W. Leigh and Peter J. Lockhart

1044 Digestion in sea urchin larvae impaired under ocean acidification

Meike Stumpp, Marian Hu, Isabel Casties, Reinhard Saborowski, Markus Bleich, Frank Melzner and Sam Dupont

ARTICLES

1050 Attributing mortality from extreme temperatures to climate change in Stockholm, Sweden

Daniel Oudin Åström, Bertil Forsberg, Kristie L. Ebi and Joacim Rocklöv

1055 Observed and predicted effects of climate change on species abundance in protected areas

Alison Johnston *et al.*
