

Food Microbiology

February 2014 Volume 37

Special Issue

V International Symposium on Sourdough - Cereal Fermentation for Future Foods, Helsinki 10-12 October 2012

Guest Editors

Kaisa Poutanen and Kati Katina

Contents

PREFACE

Poutanen, K. and Katina, K. Preface: Sourdough – multifunctional process technology for future food challenges 1

ORIGINAL ARTICLES

Gänzle, M.G. Enzymatic and bacterial conversions during sourdough fermentation 2

De Vuyst, L., Van Kerrebroeck, S., Harth, H., Huys, G., Daniel, H.-M. and Weckx, S. Microbial ecology of sourdough fermentations: Diverse or uniform? 11

Gobbetti, M., Rizzello, C.G., Di Cagno, R. and De Angelis, M. How the sourdough may affect the functional features of leavened baked goods 30

Brandt, M.J. Starter cultures for cereal based foods 41

Wolter, A., Hager, A.-S., Zannini, E., Galle, S., Gänzle, M.G., Waters, D.M. and Arendt, E.K. Evaluation of exopolysaccharide producing *Weissella cibaria* MG1 strain for the production of sourdough from various flours 44

Coda, R., Cagno, R.D., Gobbetti, M. and Rizzello, C.G. Sourdough lactic acid bacteria: Exploration of non-wheat cereal-based fermentation 51

Rizzello, C.G., Curiel, J.A., Nionelli, L., Vincentini, O., Di Cagno, R., Silano, M., Gobbetti, M. and Coda, R. Use of fungal proteases and selected sourdough lactic acid bacteria for making wheat bread with an intermediate content of gluten 59

Coda, R., Kärki, I., Nordlund, E., Heiniö, R.-L., Poutanen, K. and Katina, K. Influence of particle size on bioprocess induced changes on technological functionality of wheat bran 69

Oliveira, P.M., Zannini, E. and Arendt, E.K. Cereal fungal infection, mycotoxins, and lactic acid bacteria mediated bioprotection: From crop farming to cereal products 78
