## SPECIAL ISSUE: 2nd Conference on Coffee Cocoa and Tea Science (CoCoTea2013)

- 265** 2nd Conference on Coffee Cocoa and Tea Science (CoCoTea2013)  
M. ARLORIO AND V. FOGLIANO
- 266** Investigation of the interaction between soluble antioxidants in green tea and insoluble dietary fiber bound antioxidants  
E.E. ÇELİK, V. GÖKMEN (Turkey)
- 271** The kinetics of coffee aroma extraction  
F. MESTDAGH, T. DAVIDEK, M. CHAUMONTEUIL, B. FOLMER, I. BLANK (SWITZERLAND, UNITED KINGDOM)
- 275** Untargeted and targeted methodologies in the study of tea (*Camellia sinensis* L.)  
M. DAGLIA, R. ANTIOCHIA, A.P. SOBOLEV, L. MANNIN A (Italy)
- 290** Effect of green tea extract and microwave pre-cooking on the formation of acrylamide in fried chicken drumsticks and chicken wings  
E. DEMIROK, N. KOLSARICI (Turkey)
- 299** Effects of variety, agronomic factors, and drying on the amount of free asparagine and crude protein in chicory. Correlation with the acrylamide formation during roasting  
G. LOAËC, C. NIQUET-LÉRIDON, N. HENRY, P. JACOLOT, G. VOLPOET, E. GOUDEMANT, M. JANSSENS, P. HANCE, T. CADALEN, J.-L. HILBERT, B. DESPREZ, F.J. TESSIER (France)
- 306** Impact of starter cultures and fermentation techniques on the volatile aroma and sensory profile of chocolate  
M. CRAFTACK, H. KEUL, C.E. ESKILDSEN, M.A. PETERSEN, S. SAERENS, A. BLENNOW, M. SKOVMAND-LARSEN, J.H. SWIEGERS, G.B. PETERSEN, H. HEIMDAL, D.S. NIELSEN (Denmark)
- 317** Identification of trimeric and tetrameric flavan-3-ol derivatives in the SII black tea thearubigin fraction of black tea using ESI-tandem and MALDI-TOF mass spectrometry  
G.H. YASSIN, J.H. KOEK, N. KUHNERT (Germany)
- 328** Influence of roasting conditions on fatty acid composition and oxidative changes of cocoa butter extracted from cocoa bean of Forastero variety cultivated in Togo  
D. ŻYŻELEWICZ, G. BUDRYN, W. KRYSIAK, J. ORACZ, E. NEBESNY, M. BOJCZUK (Poland)
- 344** Online measurement of volatile organic compounds released during roasting of cocoa beans  
J. DIAB, R. HERTZ-SCHÜNEMANN, T. STREIBEL, R. ZIMMERMANN (Germany)
- 353** Identification of novel cocoa flavonoids from raw fermented cocoa beans by HPLC-MS<sup>n</sup>  
M.A. PATRAS, B.P. MILEV, G. VRANCKEN, N. KUHNERT (Germany, Belgium)
- 360** Presence and variation of  $\gamma$ -aminobutyric acid and other free amino acids in cocoa beans from different geographical origins  
A. MARSEGLIA, G. PALLA, A. CALIGIANI (Italy)

(Continued from outside back cover)

- 367** Effect of different conching processes on procyanidin content and antioxidant properties of chocolate  
C. DI MATTIA, M. MARTUSCELLI, G. SACCHETTI, B. BEHEYDT, D. MASTROCOLA, P. PITTIA (Italy, Belgium)
- 373** Effect of green tea extract and microwave pre-cooking on the formation of heterocyclic aromatic amines in fried chicken meat products  
G. HASKARACA, E. DEMIROK, N. KOLSARICI, F. ÖZ, N. ÖZSARAÇ (Turkey)
- 382** Extraction, identification and semi-quantification of oligopeptides in cocoa beans  
A. MARSEGLIA, S. SFORZA, A. FACCINI, M. BENCIVENNI, G. PALLA, A. CALIGIANI (Italy)
- 390** Tocopherols in cocoa butter obtained from cocoa bean roasted in different forms and under various process parameters  
D. ŻYŻELEWICZ, W. KRYSIAK, G. BUDRYN, J. ORACZ, E. Nebesny (Poland)
- 400** Cocoa flavanols show beneficial effects in cultured pancreatic beta cells and liver cells to prevent the onset of type 2 diabetes  
M.Á. MARTÍN, I. CORDERO-HERRERA, L. BRAVO, S. RAMOS, L. GOYA (Spain)
- 409** A 4-week consumption of medium roast and dark roast coffees affects parameters of energy status in healthy subjects  
A. RIEDEL, N. DIEMINGER, T. BAKURADZE, R. LANG, G.A. MONTOYA PARRA, C.M. HOCHKOGLER, S. WINKLER, G. BYTOF, I. LANTZ, H. STIEBITZ, E. RICHLING, T. HOFMANN, D. MARKO, D. SCHIPP, J. RAEDLE, V. SOMOZA (Austria, Germany)
- 420** Four-week coffee consumption affects energy intake, satiety regulation, body fat, and protects DNA integrity  
T. BAKURADZE, G.A.M. PARRA, A. RIEDEL, V. SOMOZA, R. LANG, N. DIEMINGER, T. HOFMANN, S. WINKLER, U. HASSMANN, D. MARKO, D. SCHIPP, J. RAEDLE, G. BYTOF, I. LANTZ, H. STIEBITZ, E. RICHLING (Germany, Austria)
- 428** Modulation of inflammatory gene transcription after long-term coffee consumption  
S. WINKLER, N. DIEMINGER, V. BLUST, A. RIEDEL, T. BAKURADZE, G. MONTOYA, U. HASSMANN, R. LANG, T. HOFMANN, V. SOMOZA, E. RICHLING, G. BYTOF, H. STIEBITZ, I. LANTZ, D. SCHIPP, J. RAEDLE, D. MARKO (Austria, Germany)
- 439** Cocoa brew inhibits *in vitro*  $\alpha$ -glucosidase activity: The role of polyphenols and high molecular weight compounds  
A. BELLESIA, D. TAGLIAZUCCHI (Italy)
- 446** Theobromine, caffeine, and theophylline metabolites in human plasma and urine after consumption of soluble cocoa products with different methylxanthine contents  
S. MARTÍNEZ-LÓPEZ, B. SARRIÁ, M. GÓMEZ-JUARISTI, L. GOYA, R. MATEOS, L. BRAVO-CLEMENTE (Spain)
- 456** *In vitro* absorption studies of chlorogenic acids from coffee using the Ussing chamber model  
D. SCHERBL, S. MUENTNICH, E. RICHLING (Germany)
- 464** An investigation on the appropriateness of chocolate to match tea and coffee  
G. DONADINI, M.D. FUMI (Italy)
- 477** How can science help to create new value in coffee?  
B. FOLMER (Switzerland)
