

CONTENTS

Volume 9, Number 5, 2014

- 647** Process analysis of the waste bamboo by using polyethylene glycol solvent liquefaction
Q. WANG, Q. CHEN, Q. QIAO & K. SUGIYAMA
- 658** Investigation of condensation reaction during phenol liquefaction of waste woody materials
Q. WANG, N. MITSUMURA, Q. CHEN, A. SARKAR, H. KUROKAWA, K. SEKIGUCHI & K. SUGIYAMA
- 669** Study on biomass tar reduction by ash and fluidizing medium in a heterogeneous reaction
Q. WANG, T. ENDO, P. APARU & H. KUROGAWA
- 680** Reactivity for pyrolysis and CO₂ gasification of alkali metal loaded waste wood char
Q. WANG, P. APAER, H. KUROKAWA & K. SUGIYAMA
- 692** Oil aggregated behavior for coal recovery and combustion characteristics of their aggregates from different grade coals
Q. WANG, H. NIIDA, C. LIU, H. KUROKAWA, A. SARKAR, K. SEKIGUCHI & K. SUGIYAMA
- 705** Recovery briquetting technologies of waste biomass and pyrolyzed waste char produced from solid industrial and agricultural organic wastes
Q. WANG, P. APARU, H. KUROGAWA & K. SUGIYAMA
- 717** Reduction of fine particles exhausted from small-size combustor using agricultural waste residue by controlling burning temperatures
Q. WANG, S. ITOH & S. LU
