Inhaltsverzeichnis

**Conference Proceedings "Science into policy, improving uptake and adoption of research"
11th to 13th November 2013 in Brisbane, Australia**

The opinions expressed and arguments employed in this publication are the sole responsibility of the authors and do not necessarily reflect those of the OECD or of the governments of its Member countries.

The Conference was sponsored by the OECD Co-operative Research Programme on Biological Resource Management for Sustainable Agricultural Systems, whose financial support made it possible for some of the invited speakers to participate in the Conference.

P. De Barro, S. Goldson, D. Bartsch, M. Hirsch, M. Jeggo,
J. W. Lowenthal, P. Macdonald, R. R. J. McAllister, R. McCrea,
F. McFarlane, C. Robinson, K. Ritman, J. Smith, R. Van Klinken,
I. Walker, J. R. Alexandre, S. Barry, C. Beech, C. Cormick, P. Kearns,
Q. Liang, A. Mankad, S. McCammon, S. Mestdagh, S. Tapsuwan
and A. Walton

**Science into policy; improving uptake and adoption
of research: outcomes and conclusions S1**

S. Goldson, P. Gluckman and K. Allen
Getting science into policy S7

K. Ritman
Science and decision making from both sides of the fence S15

M. Jeggo
Science delivering to regulators S19

P. Kearns, K. Suwabe, B. Dagallier, W. Hermans
and C. Oladini-James
**Genetically modified organisms, environmental risk
assessment and regulations S25**

I. Walker
A social scientist's view of science adoption and uptake S31

C. Cormick
**Social research into public attitudes towards new
technologies S39**

J. W. Lowenthal
**Confidence in genetically modified animal research
and regulation S47**

D. Bartsch
**GMO regulatory challenges and science: a European
perspective S51**

P. Macdonald
**Genetically modified organisms regulatory challenges
and science: a Canadian perspective S59**

J. Smith and H. Mitchell
**Challenges researchers need to consider when dealing
with regulators S65**

C. Beech
**Regulatory experience and challenges for the release
of GM insects S71**

S. L. McCammon
The connections between science and biosafety S77

S. Mestdagh, Y. Devos, C. Ehlert, Y. Liu, N. Podevin,
S. Rodighiero, E. Waigmann, J. Kiss, J. N. Perry and J. B. Sweet
**EFSA Guidelines on the environmental risk assessment
of genetically modified animals in the EU: the process
and risk assessment considerations S85**

Q. Liang, M. Garcia, A. Diallo and G. Viljoen
**Scientifically achievable directives: a key driver
in the control of transboundary animal diseases S93**

List of Participants A5
