

CONTENTS

Special topics/Sujets spéciaux

In memoriam/À la mémoire de

413

Bacteria and phytoplasmas/Bactéries et phytoplasmesComparative importance of infection routes for banana *Xanthomonas* wilt and implications on disease epidemiology and management*G. V. Nakato, W. Ocimati, G. Blomme, K. K. M. Fiaboe and F. Beed*

418

Disease control/Moyens de lutteEffect of *Trichothecium roseum*, lime sulphur and phosphites to control blossom blight and brown rot on peach*L. L. May-De Mio, G. Negri and T. J. Michailides*

428

Epidemiology/ÉpidémiologieAssessment of spatial distribution of ascospores of *Sclerotinia sclerotiorum* for regional disease forecasting in carrots*M. L. Parker, M. R. McDonald and G. J. Boland*

438

Chemotype and aggressiveness of isolates of *Fusarium graminearum* causing head blight of wheat in Nebraska*A. Panthi, H. Hallen-Adams, S. N. Wegulo, J. Hernandez Nopsa and P. S. Baenziger*

447

An improved method to estimate the uncertainty of models describing the seasonal maturation of *Venturia inaequalis* ascospores*P. Jankowski and S. Masny*

456

Fungal diseases/Maladies fongiquesPathogenicity of *Diaporthe* spp. isolates recovered from soybean (*Glycine max*) seeds in Paraguay*A. Mengistu, L. A. Castlebury, W. Morel, J. D. Ray and J. R. Smith*

470

Genetics and resistance/Génétique et résistanceMating type distribution provides evidence for sexual reproduction of *Mycosphaerella graminicola* in Algeria*N. Alloui, A. Siah, L. Brinis, P. Reignault and P. Halama*

475

Identification and validation of sheath blight resistance in rice (*Oryza sativa* L.) cultivars against *Rhizoctonia solani**Md K. Hossain, O. S. Tze, K. Nadarajah, K. Jena, Md A. Rahman Bhuiyan and W. Ratnam*

482

Genomics/GénomiqueGenetic diversity of *Verticillium dahliae* from olive trees in Tunisia based on RAMS and IGS-RFLP analyses*Y. Gharbi, M. A. Triki, A. Jolodar, R. Trabelsi, R. Gdoura and F. Daayf*

491

Host-pathogen interactions/Interactions hôte-pathogèneMicroscopic observations of strawberry plant colonization by a GFP-labelled strain of *Fusarium oxysporum* f. sp. *fragariae**H. Yuan, X. Ling, T. Liu, T. Chen, Y. Yang, S. Yao and B. Zhang*

501

Soilborne pathogens/Agents pathogènes telluriques

Impact of seed discolouration on emergence and early plant growth of durum wheat at different soil gravimetric water contents

M. R. Fernandez, H. Wang and A. K. Singh

509

Disease report/Rapport des maladies

Etiology of four foliar and root diseases of wild plants in Oman

A. M. Al-Sadi, Z. A. Al-Alawi, M. L. Deadman and A. Patzelt

517

Virology/Virologie

Influence of horticultural oil (Superior-70) on *Plum pox virus* (PPV) detection in treated and untreated PPV-infected peach (*Prunus persicae* L.) leaves

L. Stobbs, T. Lowery, R. Samara, P. Vickers, L. Bittner and N. Greig

523

First report of bumblebee (*Bombus impatiens* Cresson) transmission of *Pepino mosaic virus* between tomato (*Solanum lycopersicum* L.) and perennial climbing nightshade (*Solanum dulcamara* L.)

L.W. Stobbs and N. Greig

529

Awards 2014/Honneurs 2014

Fellow/Membre

534

Outstanding Research/Excellence en recherche

538

Outstanding Young Scientist Award/Prix Jeune Scientifique émérite

544

Achievements in Plant Disease Management/Réalisations en gestion des maladies végétales

548
