

Plant Pathology

Volume 63, Number 1, February 2014

Contents

Review

- 1 A. Cameron and V. Sarojini
Pseudomonas syringae pv. *actinidiae*: chemical control, resistance mechanisms and possible alternatives

Original Articles

- 12 P. Ferrante and M. Scortichini
Frost promotes the pathogenicity of *Pseudomonas syringae* pv. *actinidiae* in *Actinidia chinensis* and *A. deliciosa* plants
- 20 A. Chabirand, E. Jouen, O. Pruvost, F. Chiroleu, B. Hostachy, M. Bergsma-Vlami, G. Bianchi, L. Cozzolino, J. Elphinstone, M. Holeva, F. Manole, P. Martini, H. Matoušková, J. Minatchy, G. Op de Beeck, F. Poliakoff, L. Sigillo, F. Siverio, J. Van Vaerenbergh, M. Laurentie and I. Robène-Soustrade
Comparative and collaborative studies for the validation of a nested PCR for the detection of *Xanthomonas axonopodis* pv. *dieffenbachiae* from *Anthurium* samples
- 31 C. Roggia, P. Caciagli, L. Galetto, D. Pacifico, F. Veratti, D. Bosco and C. Marzachi
Flavescence dorée phytoplasma titre in field-infected Barbera and Nebbiolo grapevines
- 42 T. Cvrković, J. Jović, M. Mitrović, O. Krstić and I. Toševski
Experimental and molecular evidence of *Reptalus panzeri* as a natural vector of bois noir
- 54 D. Carrillo, R. E. Duncan, J. N. Ploetz, A. F. Campbell, R. C. Ploetz and J. E. Peña
Lateral transfer of a phytopathogenic symbiont among native and exotic ambrosia beetles
- 63 A. T. Katsiani, V. I. Maliogka, T. Candresse and N. I. Katis
Host-range studies, genetic diversity and evolutionary relationships of ACLSV isolates from ornamental, wild and cultivated Rosaceous species
- 72 H. W. Liu, L. X. Luo, J. Q. Li, P. F. Liu, X. Y. Chen and J. J. Hao
Pollen and seed transmission of *Cucumber green mottle mosaic virus* in cucumber
- 78 G. Romay, H. Lecoq, F. Geraud-Pouey, D. T. Chirinos and C. Desbiez
Current status of cucurbit viruses in Venezuela and characterization of Venezuelan isolates of *Zucchini yellow mosaic virus*
- 88 T. Davey, S. F. Carnegie, G. S. Saddler and W. J. Mitchell
The importance of the infected seed tuber and soil inoculum in transmitting *Potato mop-top virus* to potato plants
- 98 W. Wu, L. Nie, F. Shah, Y. Liao, K. Cui, D. Jiang, J. Xie, Y. Chen and J. Huang
Influence of canopy structure on sheath blight epidemics in rice
- 109 X. Pan, Y. Li, H. Zhang, R. Huang, W. Liu, J. Ming, S. Liu and X. Li
Expression of signalling and defence-related genes mediated by over-expression of *JERF1*, and increased resistance to sheath blight in rice
- 117 L. Lebreton, S. Daval, A.-Y. Guillerm-Erckelboudt, C. Gracianne, K. Gazengel and A. Sarniguet
Sensitivity to pH and ability to modify ambient pH of the take-all fungus *Gaeumannomyces graminis* var. *tritici*

Contents continued on inside back cover

Contents continued from outside back cover

- 129 V. Troch, K. Audenaert, A. Vanheule, B. Bekaert, M. Höfte and G. Haesaert
The importance of non-penetrated papillae formation in the resistance response of triticale to powdery mildew (*Blumeria graminis*)
- 140 M. T. Mas and A. M. C. Verdú
Within-population variation in resistance of *Digitaria sanguinalis* to *Ustilago syntherismae* resulting from different modes of seed germination and environment
- 148 M. B. Goll, A. Schade-Schütze, G. Swart, M. Oostendorp, J. J. Schott, B. Jaser and F. G. Felsenstein
Survey on the prevalence of *Rhizoctonia* spp. in European soils and determination of the baseline sensitivity towards sedaxane
- 155 T. D. Miles, L. A. Miles, K. L. Fairchild and P. S. Wharton
Screening and characterization of resistance to succinate dehydrogenase inhibitors in *Alternaria solani*
- 165 T. Beyers, C. Vos, R. Aerts, K. Heyens, L. Vogels, B. Seels, M. Höfte, B. P. A. Cammue and B. De Coninck
Resistance against *Botrytis cinerea* in smooth leaf pruning wounds of tomato does not depend on major disease signalling pathways
- 174 Y. Ni, Y.-J. Guo, J. Wang, R.-E. Xia, X.-Q. Wang, G. Ash and J.-N. Li
Responses of physiological indexes and leaf epicuticular waxes of *Brassica napus* to *Sclerotinia sclerotiorum* infection
- 185 M. Mikulic-Petkousek, V. Schmitzer, F. Stampar, R. Veberic and D. Koron
Changes in phenolic content induced by infection with *Didymella applanata* and *Leptosphaeria coniothyrium*, the causal agents of raspberry spur and cane blight
- 193 T. Bengtsson, A. Holefors, J. Witzell, E. Andreasson and E. Liljeroth
Activation of defence responses to *Phytophthora infestans* in potato by BABA
- 203 M. Chmielarz, S. Sobkowiak, K. Dębski, D. E. L. Cooke, M. B. Brurberg and J. Śliwka
Diversity of *Phytophthora infestans* from Poland
- 212 M. L. Vélez, M. P. A. Coetzee, M. J. Wingfield, M. Rajchenberg and A. G. Greslebin
Evidence of low levels of genetic diversity for the *Phytophthora austrocedrae* population in Patagonia, Argentina
- 221 Y. Oka, S. Shuker, N. Tkachi, B. Trabelcy and Y. Gerchman
Nematicidal activity of *Ochradenus baccatus* against the root-knot nematode *Meloidogyne javanica*
- 232 M. Marek, M. Zouhar, O. Douda, V. Gaar and P. Ryšánek
Comparative molecular analysis of *Bursaphelenchus vallesianus*, a wood-inhabiting nematode isolated from declining pine trees in the Czech Republic
