

CONTENTS

Kubešová K., Balík J., Sedlář O., Peklová L.:	
The impact of nitrogen fertilizer injection on kernel yield and yield formation of maize	1
Hao Q., Jiang C.:	
Contribution of root respiration to soil respiration in a rape (<i>Brassica campestris</i> L.) field in Southwest China	8
Li Q., Liang J.H., He Y.Y., Hu Q.J., Yu S.:	
Effect of land use on soil enzyme activities at karst area in Nanchuan, Chongqing, SW China	15
Zhao F.Z., Han X.H., Yang G.H., Feng Y.Z., Ren G.X.:	
Soil structure and carbon distribution in subsoil affected by vegetation restoration	21
Hamouz P., Hamouzová K., Tyšer L., Holec J.:	
Effect of site-specific weed management in winter crops on yield and weed populations	27
Kvíz Z., Kroulik M., Chyba J.:	
Machinery guidance systems analysis concerning pass-to-pass accuracy as a tool for efficient plant production in fields and for soil damage reduction	36
Arduini I., Masoni A., Mariotti M., Pampana S., Ercoli L.:	
Cadmium uptake and translocation in durum wheat varieties differing in grain-Cd accumulation	43
