

CONTENTS

Indicators of seabird reproductive performance demonstrate the impact of commercial fisheries on seabird populations in the North Sea A.S.C.P. Cook, D. Dadam (Norfolk, UK), I. Mitchell (Aberdeen, UK), V.H. Ross-Smith and R.A. Robinson (Norfolk, UK).....	1
Species indicators of ecosystem recovery after reducing large herbivore density: Comparing taxa and testing species combinations M. Bachand, S. Pellerin (Québec, Canada and Montréal, Canada), S.D. Côté (Québec, Canada), M. Moretti (Bellinzona, Switzerland), M. De Cáceres (Catalonia, Spain), P.-M. Brousseau, C. Cloutier (Québec, Canada), C. Hébert (Québec, Canada and Montréal, Canada), É. Cardinal, J.-L. Martin (Québec, Canada) and M. Poulin (Québec, Canada and Montréal, Canada).....	12
Cross-scale analysis of ecosystem services identified and assessed at local and European level J. Dick (Penicuik, UK), J. Maes (Ispra (VA), Italy), R.I. Smith (Penicuik, UK), M.L. Paracchini and G. Zulian (Ispra (VA), Italy)	20
Adult Odonata conservatism as an indicator of freshwater wetland condition T.E. Kutcher (Kingston, RI, USA) and J.T. Bried (Stillwater, OK, USA)	31
Pteridophytes as indicators of urban forest integrity A. Bergeron and S. Pellerin (Montréal, Canada)	40
The Hooded Crow <i>Corvus cornix</i> density as a predictor of wetland bird species richness on a large geographical scale in Poland J.Z. Kosicki (Poznań, Poland) and P. Chylarecki (Warszawa, Poland)	50
SAFE 2013: Sustainability of countries updated E. Grigoroudis, V.S. Kouikoglou (Chania, Greece) and Y.A. Phillis (Chania, Greece and Riobamba, Ecuador)...	61
Jumping behavior of the springtail <i>Folsomia candida</i> as a novel soil quality indicator in metal-contaminated soils S.W. Kim and Y.-J. An (Seoul, Republic of Korea).....	67
Satellite-derived vegetation indices contribute significantly to the prediction of epiphyllous liverworts Y. Jiang (Beijing, China), T. Wang, C.A.J.M. de Bie, A.K. Skidmore (Enschede, The Netherlands), X. Liu, S. Song (Beijing, China), L. Zhang (Shenzhen, China), J. Wang (Shanghai, China) and X. Shao (Beijing, China)	72
Emergy analysis of a small hydropower plant in southwestern China L.-X. Zhang, M.-Y. Pang and C.-B. Wang (Beijing, China)	81
The Water Footprint of Modern Consumer Society B. Ternes (Lawrence, KS, USA)	89
A pilot macroinvertebrate index of the water quality of Singapore's reservoirs E. Clews, E.-w. Low, C.C. Belle, P.A. Todd, H.S. Eikaas and P.K.L. Ng (Singapore).....	90
Deleterious effects of wastewater on the health status of fish: A field caging study J. Cazenave, C. Bacchetta, A. Rossi, A. Ale, M. Campana and M.J. Parma (Santa Fe, Argentina)	104
Environmental impacts on the Galapagos Islands: Identification of interactions, perceptions and steps ahead F. Benitez-Capistros (Brussels, Belgium), J. Hugé (Brussels, Belgium, Ghent, Belgium and Antwerp, Belgium) and N. Koedam (Brussels, Belgium)	113
The calculation of productivity factor for ecological footprints in China: A methodological note M. Liu, D. Zhang, Q. Min, G. Xie and N. Su (Beijing, PR China)	124

Network analysis indices reflect extreme hydrodynamic conditions in a shallow estuarine lake (Lake St Lucia), South Africa R.A. Chrystal and U.M. Scharler (Durban, South Africa)	130
Changes in antioxidant enzyme activities in the livers and gills of three cyprinids after exposure to a cyanobacterial bloom in the Gruža Reservoir, Serbia B.R. Gavrilović, S.G. Despotović, J.P. Gavrić, S.S. Borković-Mitić (Belgrade, Serbia), B.I. Ognjanović (Kragujevac, Serbia), S.Z. Pavlović and Z.S. Saičić (Belgrade, Serbia)	141
Ecological damage compensation for coastal sea area uses H. Rao, C. Lin, H. Kong (Xiamen, China), D. Jin (Woods Hole, MA, USA) and B. Peng (Xiamen, China)	149
Macrofauna in Mediterranean and Black Sea transitional aquatic ecosystems: A comparative study of the benthic populations sampled by box corer and leaf bags F. Sangiorgio (Lecce, Italy), V. Quintino (Aveiro, Portugal), I. Rosati (Lecce, Italy), A.M. Rodrigues (Aveiro, Portugal), M. Pinna and A. Basset (Lecce, Italy)	159
Application of diversity indices to quantify early life-history diversity for Chinook salmon G.E. Johnson, N.K. Sather (Sequim, WA, USA), J.R. Skalski (Seattle, WA, USA) and D.J. Teel (Manchester, WA, USA)	170
Indicators for genetic and phenotypic diversity of <i>Dactylis glomerata</i> in Swiss permanent grassland L. Last, G. Lüscher, F. Widmer, B. Boller and R. Kölliker (Zurich, Switzerland)	181
Ecological threshold and environmental management: A note on statistical methods for detecting thresholds S.S. Qian (Toledo, OH, USA)	192
Mapping ecosystem services: The supply and demand of flood regulation services in Europe J. Stürck (Amsterdam, The Netherlands), A. Poortinga (Wageningen, The Netherlands) and P.H. Verburg (Amsterdam, The Netherlands)	198
Subtle effects of a managed fire regime: A case study in the longleaf pine ecosystem M.A. Lashley, M.C. Chitwood, A. Prince, M.B. Elfelt, E.L. Kilburg, C.S. DePerno and C.E. Moorman (Raleigh, NC, USA)	212
Bacterioplankton assemblages as biological indicators of shrimp health status D. Zhang, X. Wang, J. Xiong, J. Zhu, Y. Wang, Q. Zhao, H. Chen, A. Guo, J. Wu and H. Dai (Ningbo, China)	218
Sensitivity of livelihood strategy to livelihood capital in mountain areas: Empirical analysis based on different settlements in the upper reaches of the Minjiang River, China Y.-p. Fang (Chengdu, PR China), J. Fan (Beijing, PR China), M.-y. Shen and M.-q. Song (Chengdu, PR China)	225
Birds as useful indicators of high nature value (HNV) farmland in Central Italy F. Morelli (Urbino, Italy), L. Jerzak (Zielona Góra, Poland) and P. Tryjanowski (Poznań, Poland)	236
Mountain river restoration measures and their success(ion): Effects on river morphology, local species pool, and functional composition of three organism groups K. Januschke (Essen, Germany), S.C. Jähnig (Frankfurt am Main, Germany and Gelnhausen, Germany), A.W. Lorenz and D. Hering (Essen, Germany)	243
Tenebrionid beetles as proxy indicators of climate aridity in a Mediterranean area S. Fattorini (Açores, Portugal and Milano, Italy) and L. Salvati (Rome, Italy)	256
What do site condition multi-metrics tell us about species biodiversity? I. Oliver (Armidale, Australia), D.J. Eldridge (Sydney, Australia), C. Nadolny and W.K. Martin (Armidale, Australia)	262
A review on China's pollutant emissions reduction assessment B. Xue (Shenyang, PR China), B. Mitchell (Waterloo, Canada), Y. Geng, W. Ren (Shenyang, PR China), K. Müller (Birkenfeld, Germany), Z. Ma (Shenyang, PR China), J.A. Puppim de Oliveira (Yokohama, Japan), T. Fujita (Tsukuba, Japan) and M. Tobias (Potsdam, Germany)	272
Molecular indicators of chronic seagrass stress: A new era in the management of seagrass ecosystems? P.I. Macreadie, M.T. Schliep (Broadway, Australia), M.A. Rasheed, K.M. Chartrand (Cairns, Australia) and P.J. Ralph (Broadway, Australia)	279
The effect of lake morphology on aquatic vegetation development and changes under the influence of eutrophication A. Kolada (Warsaw, Poland)	282
Improving the measurement of urban sprawl: Weighted Urban Proliferation (WUP) and its application to Switzerland J.A.G. Jaeger (Montréal, Canada) and C. Schwick (Zurich, Switzerland)	294
Corrigendum to 'Quantifying associations of large vertebrates with salmon in riparian areas of British Columbia streams by means of camera-traps, bait stations, and hair samples' [Ecol. Indic. 27 (2013) 97–107] T.F. Shardlow and K.D. Hyatt (Nanaimo, Canada)	309
