**Special Issue:**

**Loess and Dust Dynamics, Environments, Landforms, and Pedogenesis: A Tribute to Edward Derbyshire**

**Edited by:**

**Slobodan B. Marković and Lewis A. Owen**

Preface	
S.B. Marković and L.A. Owen	1
Iron mineralogical proxies and Quaternary climate change in SE-European loess–paleosol sequences	
B. Buggle, U. Hambach, K. Müller, L. Zöller, S.B. Marković and B. Glaser	4
Timing and spatial distribution of loess and loess-like sediments in the mountain areas of the northeastern Tibetan Plateau	
F. Lehmkuhl, P. Schulte, H. Zhao, D. Hülle, J. Protze and G. Stauch	23
Dating Middle Pleistocene loess from Stari Slankamen (Vojvodina, Serbia) — Limitations imposed by the saturation behaviour of an elevated temperature IRSL signal	
A.S. Murray, E.D. Schmidt, T. Stevens, J.-P. Buylaert, S.B. Marković, S. Tsukamoto and M. Frechen	34
Release of iron from chlorite weathering and links to magnetic enhancement in Chinese loess deposits	
S. Peng, Q. Hao, F. Oldfield and Z. Guo	43
Pedological analysis as a key for reconstructing primary loess relief — A case study from the Magdalenian site in Klementowice (eastern Poland)	
J. Rodzik, P. Mroczek and T. Wiśniewski	50
From micromorphology to palaeoenvironment: The MIS 10 to MIS 5 record in Paudorf (Lower Austria)	
T. Sprafke, C. Thiel and B. Terhorst	60
Acetic acid-leachable elements in pedogenic carbonate nodules and links to the East-Asian summer monsoon	
S. Yang, Z. Ding and Z. Gu	73
Loess deposits in the northern Kyrgyz Tien Shan: Implications for the paleoclimate reconstruction during the Late Quaternary	
J.H. Youn, Y.B. Seong, J.H. Choi, K. Abdrakhmatov and C. Ormukov	81
Loessification and hydroconsolidation: There is a connection	
I.J. Smalley and S.B. Marković	94
China: Materials for a loess landscape	
I. Smalley, K. O'Hara-Dhand and J. Kwong	100
Loess–paleosol sequences in China and Europe: Common values and geoconservation issues	
D.A. Vasiljević, S.B. Marković, T.A. Hose, Z. Ding, Z. Guo, X. Liu, I. Smalley, T. Lukić and M.D. Vujičić	108
Sources of PM <sub>2.5</sub> impacting on Gran Canaria, Spain	
J.P. Engelbrecht, I. Menéndez and E. Derbyshire	119
Dust deposits on La Graciosa Island (Canary Islands, Spain): Texture, mineralogy and a case study of recent dust plume transport	
I. Menéndez, E. Pérez-Chacón, J. Mangas, E. Tauler, J.P. Engelbrecht, E. Derbyshire, L. Cana and I. Alonso	133
Eolian contribution to geochemical and mineralogical characteristics of some soil types in Medvednica Mountain, Croatia	
L. Galović and Z. Peh	145
