

Original articles

- 201–208 **Enteric, hepatic and muscle tissue development of goat kids fed with lyophilized bovine colostrum**
D.B. Moretti; W.M. Nordi; A.L. Lima; P. Pauletti; R. Machado-Neto
- 209–214 **Recovery of intact IgG in the gastrointestinal tract of the growing rat following ingestion of an ovine serum immunoglobulin**
P. Balan; K.S. Han; V.S.R. Dukkupati; P.J. Moughan
- 215–222 **Effects of eccentric exercise on branched-chain amino acid profiles in rat serum and skeletal muscle**
Z. Qun; Y. Xinkai; W. Jing
- 223–227 **Evaluation of a fast, objective tool for assessing body condition of budgerigars (*Melopsittacus undulatus*)**
E.J. Burton; R. Newnham; S.J. Bailey; L.G. Alexander
- 228–234 **Central neuropeptide W has anorexigenic effect in rats**
T. Naso; S. Shousha; A. El-Kirdasy
- 235–238 **Effect of dietary canola oil on long-chain omega-3 fatty acid content in broiler hearts**
M.K. Gregory; M.S. Geier; R.A. Gibson; M.J. James
- 239–245 **Fresh and preserved green fodder modify effects of urinary acidifiers on urine pH of horses**
G. Goren; J. Fritz; N. Dillitzer; B. Hipp; E. Kienzle
- 246–250 **Scoring of sweat losses in exercised horses – a pilot study**
A. Zeyner; K. Romanowski; A. Vernunft; P. Harris; E. Kienzle
- 251–261 **Effects of food processing and fibre content on the digestibility, energy intake and biochemical parameters of Blue-and-gold macaws (*Ara ararauna* L. – Aves, *Psittacidae*)**
R.R. Veloso Jr; N.K. Sakomura; I.M. Kawauchi; E.B. Malheiros; A.C. Carciofi
- 262–270 **Conversion of α -linolenic acid to long-chain omega-3 fatty acid derivatives and alterations of HDL density subfractions and plasma lipids with dietary polyunsaturated fatty acids in Monk parrots (*Myiopsitta monachus*)**
C. Petzinger; C. Larner; J.J. Heatley; C.A. Bailey; R.D. MacFarlane; J.E. Bauer
- 271–278 **Effects of incremental amounts of fish oil on trans fatty acids and *Butyrivibrio* bacteria in continuous culture fermenters**
A.A. AbuGhazaleh; A. Ishlak
- 279–289 **Effects of dietary β -(1,3)(1,6)-D-glucan supplementation on growth performance, intestinal morphology and haemato-immunological profile of mirror carp (*Cyprinus carpio* L.)**
H. Kühlwein; D.L. Merrifield; M.D. Rawling; A.D. Foey; S.J. Davies
- 290–299 **Interactive effects of molasses by homofermentative and heterofermentative inoculants on fermentation quality, nitrogen fractionation, nutritive value and aerobic stability of wilted alfalfa (*Medicago sativa* L.) silage**
F. Hashemzadeh-Cigari; M. Khorvash; G.R. Ghorbani; E. Ghasemi; A. Taghizadeh; S. Kargar; W.Z. Yang
- 300–309 **Effects of a Brown-midrib corn hybrid on nutrient digestibility in wethers and on dry matter intake, performance, rumen and blood variables in dairy cows**
T. Gorniak; U. Meyer; F. Hackelsperger; S. Dänicke
- 310–317 **The effect of dietary protein levels on the expression of genes coding for four selected protein translation initiation factors in muscle tissue of Wujin pig**
L.Y. Liu; J. Wang; Y. Huang; H.B. Pan; X. Zhang; Z.X. Huang; S.M. Zhao; S.Z. Gao
- 318–327 **Changes in tissue free amino acid pools in growing chickens fed thermally treated vetch diets**
I. Fernández-Figares; R. Nieto; J.F. Aguilera; M. Lachica
- 328–337 **Content of plasmatic glycerol and activity of hepatic glycerol kinase in broiler chickens fed diets containing different sources and concentrations of glycerine**
V.M.P. Bernardino; P.B. Rodrigues; L. de Paula Naves; P.V. Rosa; M.G. Zangerónimo; E.M. Gomide; M.M. Saldanha; R.R. Alvarenga
- 338–346 **Ontogeny expression of ghrelin, neuropeptide Y and cholecystokinin in blunt snout bream, *Megalobrama amblycephala***
H.-C. Ping; K. Feng; G.-R. Zhang; K.-J. Wei; G.-W. Zou; W.-M. Wang
- 347–356 **Effect of feeding dried distillers' grains with solubles on milk yield and milk composition of cows in mid-lactation and digestibility in sheep**
E. Westreicher-Kristen; R. Kaiser; H. Steingass; M. Rodehutschord
- 357–372 **Low protein provision during the first year of life, but not during foetal life, affects metabolic traits, organ mass development and growth in male mink (*Neovison vison*)**
K. Vesterdorf; D. Blache; A. Harrison; C.F. Matthiesen; A.-H. Tauson
- 373–383 **Effect of different levels of black cumin (*Nigella sativa* L.) on performance, intestinal *Escherichia coli* colonization and jejunal morphology in laying hens**
J. Boka; A.H. Mahdavi; A.H. Samie; R. Jahanian
- 384–392 **Tissue fatty acid composition and estimated Δ desaturase activity after castration in chicken broilers fed with linseed or sunflower oil**
T. Mašek; K. Starčević; N. Filipović; Z. Stojević; D. Brozić; Ž. Gottstein; K. Severin
- 393–401 **Effect of dietary supplementation with an ethanolic extract of propolis on broiler intestinal morphology and digestive enzyme activity**
C. Eying; A.E. Murakami; C.R.A. Duarte; T.C. Santos
