

Soil & Sediment Contamination

Table of Contents

Volume 23 • Issue 1 • 2014

Cadmium Resistance Mechanism in Acidophilic and Alkalophilic Bacterial Isolates and their Application in Bioremediation of Metal-Contaminated Soil Bhoomika Saluja and Veena Sharma	1
Benchscale Assessment of the Efficacy of a Reactive Core Mat to Isolate PAH-Spiked Aquatic Sediments Dogus Meric, Sara Barbuto, Thomas C. Sheahan, James P. Shine, and Akram N. Alshawabkeh	18
Adsorption of Antimony on Sediments from Typical Water Systems in China: A Comparison of Sb(III) and Sb(V) Pattern Jianhong Xi, Mengchang He, and Pengfei Wang	37
Mercury (II) Adsorption on Three Contrasting Chinese Soils Treated with Two Sources of Dissolved Organic Matter: I. Langmuir and Freundlich Isotherm Evaluation Mengmeng Zhang, Renqing Wang, Wei Guo, Tong Xue, and Jiulan Dai	49
Assessing the Risk of Soil Pollution around an Industrialized Mining Region Using a Geostatistical Approach Konstantinos Modis and Konstantinos I. Vatalis	63
Hydrocarbons, Pb-Concentrations, and Pb-Isotope Ratios in Contaminated Alluvial Soils (Southern Québec, Canada) Diane Saint-Laurent, Francis Baril, Marlies Hähni, and Maxime C. Paré	76
Influences of Electron Donor, Bicarbonate, and Sulfate on Bioreduction Processes and Manganese/Copper Redistributions among Minerals in a Water-Saturated Sediment Youchi Zhang, Chaohua Hu, and Wensui Luo	94

Volume 23 • Issue 2 • 2014

Optimization of Operating Parameters for the Selective Flotation of Heavy Metals from Contaminated Fine Sediment Using Response Surface Model Dileep Palakkeel Veetil, Guy Mercier, Jean-Francois Blais, and Myriam Chartier	107
Can CO ₂ Fertilization Enhance Phytoremediation of Organic Soil Contamination? Xiaojun Diao, Liansheng He, Beidou Xi, and Pengteng Wang	126
Geochemical Assessment of Two Excavated Mass Graves in Rwanda: A Pilot Study S. A. Amuno and M. M. Amuno	144
Chemical Extraction of Arsenic from Contaminated Soils in the Vicinity of Abandoned Mines and a Smelting Plant Under Subcritical Conditions Seok-Young Oh and Myong-Keun Yoon	166
Treatment of Diesel-Contaminated Soil by Fenton and Persulfate Oxidation with Zero-Valent Iron Seok-Young Oh and Dong-Sik Shin	180
A Counter-Current Acid Leaching Process for the Remediation of Contaminated Soils from a Small-Arms Shooting Range Stéphanie Lafond, Jean-François Blais, Guy Mercier, and Richard Martel	194

Recovery of Historically Contaminated Watercourse Polluted by the Chemical Wood Industry: EROD Activity in Fish as Biomarker Heli M. Ratia, Eeva-Riikka Vehniäinen, Antti T. Rusanen, and Aimo O.J. Oikari	211
---	-----

Volume 23 • Issue 3 • 2014

Biostimulation and Phytoremediation Treatment Strategies of Gasoline-Nickel Co-Contaminated Soil S. E. Agarry, M. O. Aremu, and O. A. Aworanti	227
The Effect of EDTA Addition on the Phytoremediation Efficiency of Pb and Cr by <i>Echinochloa crus galii</i> (L.) Beave and Associated Potential Leaching Risk M. Ebrahimi	245
Levels of Metallic Cations in the Surface Sediments in the Vicinity of the Três Marias Dam Lake (Brazil) Determined by ICP-MS and Microwave Sample Preparation Ronaldo A. M. Junior, Aparecida M. S. Mimura, Alex C. Divino, Roberta F. Silva, Julio C. J. Silva, and Virginia S. T. Ciminelli	257
Stabilization of Cr, Pb, and Zn in Soil Using Lignite Nikolett Uzinger, Márk Rékási, Eszter Draskovits, and Attila Anton	270
Occurrence and Implications of SEM-AVS for Surface Sediments from Baihua Lake, China Liya Fu, Jiwei Hu, Wei Shen, Xianfei Huang, Jin Luo, Miao Jia, and Jiping Zhang	287
Soil Profile Arsenic Concentration Distributions in Missouri Soils Having Cambic and Argillic Soil Horizons Michael Aide, Donn Beighley, and David Dunn	313
Combined Application of Rice Straw and Fungus <i>Penicillium Chrysogenum</i> to Remediate Heavy-Metal-Contaminated Soil Ming Li, Xue Tian, Rong-Zi Liu, Wen-Li Chen, Peng Cai, Xing-Min Rong, Ke Dai, and Qiao-Yun Huang	328
Analysis of Pesticides in Soil Using Dispersive Solid Phase Extraction Coupled to GC-MS Tuan Linh Pham, Tien Hung Phan, and Thanh Dong Nguyen	339

Volume 23 • Issue 4 • 2014

Assessment of Anthropogenic Influence on Heavy Metals Contamination in the Aquatic Ecosystem Components: Water, Sediment, and Fish M. Safiur Rahman, Narottam Saha, A. Hossain Molla, and Sharif M. Al-Reza	353
Sequestration Enhancement of Metals in Soils by Addition of Iron Oxides Recovered from Coal Mine Drainage Sites Ran Liu, Emmeline B. Altschul, Robert S. Hedin, David V. Nakles, and David A. Dzombak	374
EDTA-Enhanced Phytoremediation of Heavy Metals: A Review M. Shahid, A. Austruy, G. Echevarria, M. Arshad, M. Sanaullah, M. Aslam, M. Nadeem, W. Nasim, and C. Dumat	389
Selectivity Assessments of a Sequential Extraction Procedure for Potential Trace Metals' Mobility and Bioavailability in Phosphate Rocks from Jordan Phosphate Mines Mohammad Al-Hwaiti, James Tardio, Hailey Reynolds, and Suresh Bhargava	417

Comparison of Different Standard Methods to Evaluate the Total Concentrations of Heavy Metals in Waste Rock Juhani Kaakinen, Toivo Kuokkanen, Janne Pesonen, and Ilkka Välimäki	437
Subsampling of Soils Containing Energetics Residues M. R. Walsh, M. E. Walsh, K. Gagnon, A. D. Hewitt, and T. F. Jenkins	452
Risk Assessment of Polycyclic Aromatic Hydrocarbons in the Shenfu Irrigation Area in China and their Application for Determining the Optimum Land Use Model Zhihong Liu, Xiaojun Li, Ling Xu, Shengqing Shuang, and Zhi Li	464
Seasonal Variation of Acid Volatile Sulfide and Simultaneously Extracted Metals in Sediment Cores from the Pearl River Estuary Yongqiang Yang, Ling Zhang, Fanrong Chen, Mingliang Kang, Shijun Wu, and Jinsong Liu	480
