

CONTENTS

Symposium contribution/Contribution á un symposium

The role of fungicides for effective disease management in cereal crops

N. F. Poole and M. E. Arnaudin

1

Biochemistry and cell biology/Biochimie et biologie cellulaire

Characterization of NADPH oxidase genes *NoxA* and *NoxB* in *Fusarium graminearum*

L. Wang, C. Mogg, S. Walkowiak, M. Joshi and R. Subramaniam

12

Disease control/Moyens de lutte

Management of powdery mildew (*Podosphaera xanthii*) on greenhouse cucumber in Ontario

R. F. Cerkauskas and G. Ferguson

22

Epidemiology/Épidémiologie

Comparison of macro-morphological and physiological methods for *Monilinia* species identification in Paraná State, Brazil

P. S. F. Lichtemberg, F. A. Silva, W. M. Zeviani and L. L. M. De Mio

38

Effect of different levels of Sigatoka disease severity on banana pulp colour and early ripening

M. Chillet, F. P. Castelan, C. Abadie, O. Hubert, Y. Chilin-Charles and L. De Lapeyre De Bellaire

48

Ratio of 3-ADON and 15-ADON isolates of *Fusarium graminearum* recovered from wheat kernels in Manitoba from 2008 to 2012

J. Gilbert, A. Brûlé-Babel, A. T. Guerrieri, R. M. Clear, S. Patrick, K. Slusarenko and C. Wolfe

54

Evaluation of epidemics and weather-based fungicide application programmes in controlling anthracnose fruit rot of day-neutral strawberry in outdoor field and protected cultivation systems

R. R. Burlakoti, J. Zandstra and K. Jackson

64

Characterization of *Phytophthora infestans* population diversity in Canada reveals increased migration and genotype recombination

R. D. Peters, K. I. Al-Mughrabi, M. L. Kalischuk, K. F. Dobinson, K. L. Conn, H. Alkher, M. R. Islam, F. Daayf, J. Lynn, B. Bizimungu, D. De Koeyer, C. A. Lévesque and L. M. Kawchuk

73

Note - Genetics and resistance/Génétique et résistance

Double artificial inoculation of *Puccinia triticina* for the study of wheat leaf rust resistance

S. B. Rosa, B. D. McCallum, A. Brûlé-Babel and P. Seto-Goh

83

Genetics and resistance/Génétique et résistance

Sources of resistance to *Plasmodiophora brassicae* (clubroot) pathotypes virulent on canola

G. Peng, K. C. Falk, R. K. Gugel, C. Franke, F. Yu, B. James, S. E. Strelkov, S.-F. Hwang and L. McGregor

89

Virology/Virologie

Transgenic expression of a rice riboflavin synthase gene in tobacco enhances plant growth and resistance to *Tobacco mosaic virus*

Y. Y. Zhao, D. F. Wang, T. Q. Wu, A. Guo, H. S. Dong and C. L. Zhang **100**

Biological studies of three caulimoviruses associated with dahlia (*Dahlia variabilis*)

S. Eid and H. R. Pappu **110**

Evaluation of rootstocks of stone fruits for resistance to natural *Plum pox virus* infection

J. Polák and P. Komínek **116**

Disease report/Rapport des maladies

Identification of *Colletotrichum capsici* (Syd.) Butler causing anthracnose on pumpkin in China

A.-L. Chai, Y.-J. Zhao, Y.-X. Shi, X.-W. Xie and B.-J. Li **121**

Abstracts/Résumés

Alberta Regional Meeting, 2013/Réunion régionale de l'Alberta, 2013 **125**

British Columbia Regional Meeting, 2013/Réunion régionale de la Colombie-Britannique, 2013 **133**

Southwestern Ontario Regional Meeting, 2013/Réunion régionale du-ouest de l'Ontario, 2013 **138**
