- 97 Effects of the implementation of ecological restoration policies on soil organic carbon storage in a discontinuous soil region  
*X. Qi, K. Wang, C. Zhang, H. Chen and W. Zhang*
- 109 How the choice of biofuel system in a small-scale Swedish organic farm affects food production and NPK balance  
*S. Johansson, L. Ohlander, K. Belfrage, C. Sundberg and P.-A. Hansson*
- 121 Effects of plant-derived smoke on the growth dynamics of Barnyard Grass (*Echinochloa crus-galli*)  
*M. Kamran, A.L. Khan, M. Waqas, Q.M. Imran, M. Hamayun, S.-M. Kang, Y.-H. Kim, M.-J. Kim and I.-J. Lee*
- 129 Yield response of fennel (*Foeniculum vulgare* Mill.) to irrigation with saline water  
*G. Cucci, G. Lacolla, F. Boari and V. Cantore*
- 135 Effect of zoysiagrass rhizosphere fungal isolates on disease suppression and growth promotion of rice seedlings  
*M.M. Elsharkawy, N. Hassan, M. Ali, S.N. Mondal and M. Hyakumachi*
- 141 Protective role of humic acids against dicamba-induced genotoxicity and DNA methylation in *Phaseolus vulgaris* L.  
*N. Yildirim, G. Agar, M.S. Taspinar, M. Turan, M. Aydin and E. Arslan*
- 149 An efficient method for determining the balanced solubility of lime in a predetermined time period  
*V. Loide, A. Rani and I. Randma*
- 155 Elevated expression of hydrolases, oxidase, and lyase in susceptible and resistant cucumber cultivars systemically induced with plant growth-promoting fungi against anthracnose  
*N. Hassan, M.M. Elsharkawy, M.B. Shivanna, M.S. Meera and M. Hyakumachi*
- 165 Allelopathic effect of methanol extracts from *Tinospora tuberculata* on selected crops and rice weeds  
*F. Aslani, A.S. Juraimi, M.S. Ahmad-Hamdani, D. Omar, M.A. Alam, F.S.G. Hashemi, M.A. Hakim and M.K. Uddin*

SHORT COMMUNICATION

---

- 178 Low levels of ultraviolet-B radiation from fluorescent tubes induce an efficient flavonoid synthesis in Lollo Rosso lettuce without negative impact on growth  
*C. Rodriguez, S. Torre and K.A. Solhaug*
