C: FOOD CHEMISTRY

Purification, Identification, and *In Vivo* Activity of Angiotensin I-Converting Enzyme Inhibitory Peptide, from Ribbonfish (*Trichiurus haumela*) Backbone—Ping Zou, Jin-Ling Wang, Guo-Qing He, and Jianping Wu C1

Nonthermal Inactivation of Soy (*Glycine Max Sp.*) Lipoxygenase by Pulsed Ultraviolet Light—Bhaskar A. Janve, Wade Yang, Maurice R. Marshall, José I. Reyes-De-Corcuera, and Taha M. Rababah C8

The Effect of Feed Solids Concentration and Inlet Temperature on the Flavor of Spray Dried Whey Protein Concentrate—Curtis W. Park, Eric Bastian, Brian Farkas, and MaryAnne Drake C19

Thermally Stimulated Luminescence in Powdered Soy Proteins—Dereje Abdi, Muhammad S. Jahan, William L. Boatright, Benjamin M. Walters, and Qingxin Lei C25

Impact of High Hydrostatic Pressure and Pasteurization on the Structure and the Extractability of Bioactive Compounds of Persimmon "Rojo Brillante"—M. Hernández-Carrión, J. L. Vázquez-Gutiérrez, I. Hernando, and A. Quiles C32

E: FOOD ENGINEERING AND PHYSICAL PROPERTIES

Combined Vacuum Impregnation and Electron-Beam Irradiation Treatment to Extend the Storage Life of Sliced White Button Mushrooms (*Agaricus bisporus*)—Zeynep Sevimli Yurttas, Rosana G. Moreira, and Elena Castell-Perez E39

Release of Allyl Isothiocyanate from Mustard Seed Meal Powder—Ruyan Dai and Loong-Tak Lim E47

M: FOOD MICROBIOLOGY AND SAFETY

Effect of Salts of Organic Acids on *Listeria monocytogenes*, Shelf Life, Meat Quality, and Consumer Acceptability of Beef Frankfurters—Amit Morey, Jordan W. J. Bowers, Laura J. Bauermeister, Manpreet Singh, Tung-Shi Huang, and Shelly R. McKee M54

Apple, Carrot, and Hibiscus Edible Films Containing the Plant Antimicrobials Carvacrol and Cinnamaldehyde Inactivate *Salmonella* Newport on Organic Leafy Greens in Sealed Plastic Bags—Libin Zhu, Carl Olsen, Tara McHugh, Mendel Friedman, Divya Jaroni, and Sadhana Ravishankar M61

Identification and Partial Characterization of a Bacteriocin-Like Inhibitory Substance (BLIS) from *Lb. Bulgaricus* K41 Isolated from Indigenous Yogurts—Davood Zaeim, Sabihe Soleimanian-Zad, and Mahmoud Sheikh-Zeinoddin M67

Thermal Inactivation of *Escherichia coli* O157:H7 in Strawberry Puree and Its Effect on Anthocyanins and Color—Hsin-Yun Hsu, Lihan Huang, and James Swi-Bea Wu M74

S: SENSORY AND FOOD QUALITY

Low-Dose Irradiation Can be Used as a Phytosanitary Treatment for Fresh Table Grapes—Gina C. Kim, Cyril Rakovski, Fred Caporaso, and Anuradha Prakash S81

Aromatic Profile of Ciders by Chemical Quantitative, Gas Chromatography-Olfactometry, and Sensory Analysis—María José Antón, Belén Suárez Valles, Ana García Hevia, and Anna Picinelli Lobo S92
