

**SPECIAL ISSUE: BIOLOGY, ECOLOGY, BEHAVIOR, HOST STATUS, AND MANAGEMENT OF INVASIVE AND NATIVE FRUIT FLIES OF EUROPE, AFRICA AND THE MIDDLE EAST**

**ISSUE EDITORS: NIKOLAOS T. PAPADOPOULOS AND SERGE QUILICI**

**EDITORIAL**

**N. T. PAPADOPOULOS, S. QUILICI**

Biology, ecology, behavior, host status, and management of invasive and native fruit flies of Europe, Africa and the Middle East

393-394

**ORIGINAL ARTICLES**

**V. MIGANI, S. EKESI, T. S. HOFFMEISTER**

Physiology vs. environment: what drives oviposition decisions in mango fruit flies (*Bactrocera invadens* and *Ceratitis cosyra*)?

395-402

**V. NAVARRO-LLOPIS, S. VACAS, M. ZARZO, J. PRIMO**

Dispersal ability of *Ceratitis capitata* (Diptera: Tephritidae): edge effect in area-wide treatments

403-408

**P. SOOKAR, S. BHAGWANT, F. B. KHAYRATTEE, Y. CHOONEEA, S. EKESI**

Mating compatibility of wild and sterile melon flies, *Bactrocera cucurbitae* (Diptera: Tephritidae) treated with entomopathogenic fungi

409-417

**F. JIANG, Z. H. LI, J. J. WU, F. X. WANG, H. L. XIONG**

A rapid diagnostic tool for two species of *Tetradacus* (Diptera: Tephritidae: *Bactrocera*) based on species-specific PCR

418-422

**N. E. ZYGOURIDIS, Y. ARGOV, E. NEMNY-LAVY, A. A. AUGUSTINOS, D. NESTEL, K. D. MATHIOPOULOS**

Genetic changes during laboratory domestication of an olive fly SIT strain

423-432

**D. P. PAPACHRISTOS, N. T. PAPADOPOULOS, E. MAGLARAS, A. MICHAELAKIS, S. A. ANTONATOS**

Susceptibility of kiwifruit (*Actinidia* spp.) cultivars to *Ceratitis capitata* (Diptera: Tephritidae) infestation

433-440

**J. K. SALUM, M. W. MWATAWALA, P. M. KUSOLWA, M. D. MEYER**

Demographic parameters of the two main fruit fly (Diptera: Tephritidae) species attacking mango in Central Tanzania

441-448

**D. CUGALA, S. EKESI, D. AMBASSE, R. S. ADAMU, S. A. MOHAMED**

Assessment of ripening stages of Cavendish dwarf bananas as host or non-host to *Bactrocera invadens*

449-457

**ADVANCE IN METHODOLOGY**

**S. A. LUX**

PESTonFARM – stochastic model of on-farm insect behaviour and their response to IPM interventions

458-467

**SHORT COMMUNICATION**

**C. E. OGAUGWU, I. M. CURRIL, E. A. WIMMER**

Generation time extension for cost-effective strain maintenance of transgenic Mediterranean fruit fly, *Ceratitis capitata* [Diptera: Tephritidae]

468-473
