

CONTENTS

ORIGINAL ARTICLES

- 185 Grain yields and soil properties on loam soil after three decades with conservation tillage in southeast Norway
H. Riley
- 203 Soil organic carbon in relation to cultivation in arable and greenhouse cropping systems in Lanzhou, NW China
Y. Luo, X. Zhao and O. Andrén
- 211 Variation in *Elymus repens* susceptibility to glyphosate
L.Å. Espeby, H. Fogelfors, S. Sjödal and P. Milberg
- 220 Traffic-induced soil compaction during manure spreading in spring in South-East Norway
T. Seehusen, H. Riley, R. Riggert, H. Fleige, T. Børresen, R. Horn and A. Zink
- 235 Geostatistical analyses of spatial distribution and origin of soil nutrients in long-term wastewater-irrigated area in Beijing, China
Z. Bao, W. Wu, H. Liu, S. Yin and H. Chen
- 244 Post-harvest ripening increase cultivar specific sensory and analytical aroma profile in apple juice: A study of four commercial cultivars in Denmark
M. Martínez Vega, C. Varming, T. Skov and T.B. Toldam-Andersen
- 252 Inoculation of phosphate-solubilizing bacteria *Bacillus thuringiensis* B1 increases available phosphorus and growth of peanut in acidic soil
T. Wang, M.-Q. Liu and H.-X. Li
- 260 New oilseed rape (*Brassica napus* L.) varieties – canopy development, yield components, and plant density
K. Rózyło and E. Pałys
- 267 Prediction of total nitrogen in cropland soil at different levels of soil moisture with Vis/NIR spectroscopy
Y. Liu, Q. Jiang, T. Shi, T. Fei, J. Wang, G. Liu and Y. Chen
