

Journal of Arid Environments

Volume 110 November 2014

Contents

CLIMATE

- Kang, S., Bräuning, A. & Ge, H. Tree-ring based evidence of the multi-decadal climatic oscillation during the past 200 years in north-central China. 53
- Baidya Roy, S., Smith, M., Morris, L., Orlovsky, N. & Khalilov, A. Impact of the desiccation of the Aral Sea on summertime surface air temperatures 79

WATER AND SOIL

- García-Rodríguez, M., Antón, L. & Martínez-Santos, P. Estimating groundwater resources in remote desert environments by coupling geographic information systems with groundwater modeling (Erg Chebbi, Morocco) 19

LAND USE

- Contreras, D.A., Robin, V., Gonda, R., Hodara, R., Dal Corso, M. & Makarewicz, C. (Before and) After the Flood: A multiproxy approach to past floodplain usage in the middle Wadi el-Hasa, Jordan 30

GRAZING

- Mancilla-Leytón, J.M. & Vicente, A.M. Effect of agro-industrial by-products on browsing of *Rosmarinus officinalis* by goats. 8
- De Fortier, A., Landman, M. & Kerley, G.I.H. Utility of a forage-productivity model for predicting herbivore abundance in the eastern Karroo, South Africa, varies among habitats 60

SHORT COMMUNICATIONS

- Brock, J., Brandau, B., Arthun, D., Humphrey, A.L., Dominguez, G. & Jacobs, A. Long-term results of tebuthiuron herbicide treatment on creosote bush (*Larrea tridentata*) in southeast Arizona, USA 44
- Shams, A. A rediscovered-new 'Qanat' system in the High Mountains of Sinai Peninsula, with Levantine reflections 69
- Segura, F., Martínez-Sánchez, J.J., Aguado, M., Franco, J.A. & Vicente, M.J. Could recently locally extinct population patches of *Astragalus nitidiflorus* regenerate from the soil seed bank? 75

PLANT ECOLOGY

- Cesca, E.M., Villagra, P.E. & Alvarez, J.A. From forest to shrubland: Structural responses to different fire histories in *Prosopis flexuosa* woodland from the Central Monte (Argentina). 1
- Dickens, S.J.M. & Allen, E.B. Soil nitrogen cycling is resilient to invasive annuals following restoration of coastal sage scrub 12
- Silva, F.K.G., Lopes, S.F., Lopez, L.C.S., Melo, J.I.M. & Trovão, D.M.B.M. Patterns of species richness and conservation in the Caatinga along elevational gradients in a semiarid ecosystem 47
