

**Review article**

- 609–619 **Nutritional interventions to prevent and rear low-birthweight piglets**  
M. De Vos; L. Che; V. Huygelen; S. Willemen; J. Michiels; S. Van Cruchten; C. Van Ginneken

**Original articles**

- 620–627 **Effect of vitamins, protein level and probiotics on immune response of moulted male broiler breeders**  
R.U. Khan; Z.U. Rahman; I. Javed; F. Muhammad
- 628–635 **Estimating energy losses with urine in the cat**  
B. Wichert; A. Liesegang; S. Hartnack
- 636–642 **Effect of dietary mannanase-hydrolysed copra meal on growth performance and intestinal histology in broiler chickens**  
M. Ibuki; K. Fukui; K. Yamauchi
- 643–650 **Effects of high non-phytate phosphorus starter diet on subsequent growth performance and carcass characteristics of broiler chickens**  
N. Baradaran; M.H. Shahir; Z. Asadi Kermani; P.W. Waldroup; M.A. Sirjani
- 651–658 **Effects of formulating growing pig diet with increasing levels of wheat-corn distillers dried grains with solubles on digestible nutrient basis on growth performance and nutrient digestibility**  
A.K. Agyekum; T.A. Woyengo; B.A. Slominski; Y.L. Yin; C.M. Nyachoti
- 659–666 **Faecal nitrogen excretion as an approach to estimate forage intake of wethers**  
G.V. Kozloski; L. Oliveira; C.H.E.C. Poli; E.B. Azevedo; D.B. David; H.M.N. Ribeiro Filho; S.G. Collet
- 667–671 **Rearing conditions influence nutrient availability of plant extracts supplemented diets when fed to broiler chickens**  
V. Pirgozliev; D. Bravo; S.P. Rose
- 672–679 **Effects of carboxy methyl cellulose and thymol + carvacrol on performance, digesta viscosity and some blood metabolites of broilers**  
H. Hashemipour; H. Kermanshahi; A. Golian; V. Khaksar
- 680–685 **Effects of sodium butyrate on growth performance, haematological and immunological characteristics of weanling piglets**  
C.L. Fang; H. Sun; J. Wu; H.H. Niu; J. Feng
- 686–692 **Seasonality of oestrus, ovulation and ovulation rate of Sicilo-Sarde sheep**  
N. Lassoued; M. Rekek; S. Khenissi; A. Merai
- 693–703 **Comparison of hepatic adaptation in extreme metabolic phenotypes observed in early lactation dairy cows on-farm**  
H.A. van Dorland; M. Graber; S. Kohler; A. Steiner; R.M. Bruckmaier
- 704–713 **Effects of pH and fermentative substrate on ruminal metabolism of fatty acids during short-term in vitro incubation**  
A. Troegeler-Meynadier; C. Palagiano; F. Enjalbert
- 714–721 **Effect of physical effectiveness on digestibility of ration for cows in early lactation**  
B. Stojanovic; G. Grubic; N. Djordjevic; A. Bozickovic; A. Ivetic; V. Davidovic
- 722–730 **Buffer nitrogen solubility, in vitro ruminal partitioning of nitrogen and in vitro ruminal biological activity of tannins in leaves of four fodder tree species**  
N. Cudjoe; V. Mlambo
- 731–738 **Changes in chemical composition and digestibility of three maize stover components digested by white-rot fungi**  
J.P. Lynch; P. O'kiely; R. Murphy; E.M. Doyle
- 739–746 **Positive influence of L-carnitine on the different muscle fibres types of racing pigeons**  
M.H. Chang; F.H. Tsai; S.J. Chou; J.H. Wang; D.Y. Lo; Z.Z. Zheng; K.W. Chan; J.M. Lai
- 747–754 **Effect of different selenium sources on production performance and biochemical parameters of broilers**  
G. Chen; J. Wu; C. Li
- 755–765 **Molecular cloning of type I collagen cDNA and nutritional regulation of type I collagen mRNA expression in grass carp**  
E.M. Yu; B.H. Liu; G.J. Wang; D.G. Yu; J. Xie; Y. Xia; W.B. Gong; H.H. Wang; Z.F. Li; N. Wei
- 766–774 **Effect of dosage and application mode of L-carnitine on plasma lipid and egg-yolk cholesterol of turkeys, hatchability of eggs and post-hatch growth of their offsprings**  
A.O. Oso; A.O. Fafiolu; M.A. Adeleke; O.A. Ladokun; R.A. Sobayo; A.V. Jegede; S.O. Peters; O.A. Oyebamiji; J. Akinsola
- 775–784 **Periparturial calcium homeostasis of multiparous dairy cows fed rumen-protected rice bran or a lowered dietary cation/anion balance diet before calving**  
J. Martín-Tereso; H. ter Wijlen; H. van Laar; M.W.A. Verstegen
- 785–796 **Using rumen probes to examine effects of conjugated linoleic acids and dietary concentrate proportion on rumen pH and rumen temperature of periparturient dairy cows**  
M. Petzold; U. Meyer; J. Spilke; S. Dänicke
- 797–807 **Effects of nutrient restriction and melatonin supplementation on maternal and foetal hepatic and small intestinal energy utilization**  
L.D. Prezotto; C.O. Lemley; L.E. Camacho; F.E. Doscher; A.M. Meyer; J.S. Caton; B.J. Awda; K.A. Vonnahme; K.C. Swanson
