Distributed worldwide by Springer. *Russian Agricultural Sciences* ISSN 1068-3674.

Plant Industry

- DNA Markers of the Vernalization Gene *FRIGIDA* in *Brassica* Crops
O. A. Fadina and E. E. Khavkin 165
- Characteristics of New High Quality Maize Inbred Lines with Efficient
Photosynthetic Functions
*Ch. Radenovich, M. Filipovich, M. Babich, V. Andzhelkovich, Zh. Jovanovich,
M. Sechanski, and G. Stankovich* 170
- Influence of Exogenous Phytohormone on the Productivity and Adaptation
of Winter Barley Varieties to Lodging
V. F. Vashchenko, N. V. Serkin, and V. V. Nam 175
- Efficient and Nontoxic DNA Isolation Method for PCR Analysis
A. S. Hussein, A. A. Nalbandyan, T. P. Fedulova, and N. N. Bogacheva 177
- Studying the Collection Accessions in Chick Pea *Cicer Arietinum* L.
with Different Geographic Origin in Oryol Oblast
M. V. Donskaya, G. N. Suvorova, S. V. Bulyntsev, and T. S. Naumkina 179
-

Plant Protection

- Evaluation of *Glycine max* (L.) Merril Resistance Against Root Rot by Means
of Enzymatic Activity
E. A. Semenova, L. K. Dubovitskaya, and S. A. Titova 185
- Viral Preparations for Protection of Farm Cultures
T. V. Dolzhenko and E. Geppert 188
- Dynamics of Soil Seed Bank of Weeds Depending
on Cultivating Technologies of Agricultural Crops
N. A. Korotkikh and N. G. Vlasenko 191
-

Ecology

- Content of ^{137}Cs and ^{90}Sr in the Forages of Various Ecological Zones
of Western Siberia
*O. S. Korotkevich, V. L. Petukhov, O. I. Sebezsko,
Ye. Ya. Barinov, and T. V. Konovalova* 195
- Effects of Cadmium Pollution of Chernozemic Soils
on the Growth and Development of Field Beans
N. N. Loi, N. I. Sanzharova, and O. S. Gubareva 198
-

Pedology

- Adaptive Management of Environmental Acidity
V. P. Yakushev, V. V. Karelin, and V. M. Bure 202

Effectiveness of Different Meliorants to Reduce the Degree of Heavy Metal Mobility
in Polluted Agrozem

A. V. Lednev and A. V. Lozhkin

205

Agroforestry Amelioration

Dynamic Model of the Age-Dependent Thinning of Forest Stands in Lands with Different
Afforestation Suitability

Yu. I. Vasiliev, S. Yu. Turko, and N. N. Ovechko

208

Animal Husbandry

Polymorphism of Interphase Nucleolus Organizer Regions in Imported Pigs and Their Offspring

S. K. Buteeva, M. L. Kochneva, K. V. Zhuchaev, and S. V. Papshev

211

Comparative Analysis of the Phenotypic Composition of Polymorphic Protein
and Enzyme Systems of Blood of Different Production Type Sheep

L. V. Olkhovskaya, D. Yu. Degtyarev, and S. V. Krivoruchko

214

Effectiveness of Homogeneous and Heterogeneous Selection of Kazakh Meat
and Wool Sheep Breed for Conformational and Constitutional Type
under Conditions of the Zailiiskii Altai Piedmont Zone

A. T. Musakhanov

217

Breeding of Plymouth Rock Meat Chickens at the Smena Breeding and Genetics Center

Zh. V. Yemanuilova, D. N. Yefimov, L. I. Tuchemsky, and A. V. Yegorova

220

Characteristics of the Doba-lek 82 Line in Kazakh Dromedary Nar

D. A. Doshanov, D. A. Baimukanov, and Yu. A. Yuldashbaev

224

Veterinary

Fluorescence Analysis of Chick Proventriculus Cells during Intestinal Diseases

S. V. Larionov and S. V. Akchurin

226

Modeling

Using Nonlinear Description Methods for Description of the Sun and Earth Links
in the Prediction of Yield in the Steppe Ural Region

V. E. Tikhonov, O. A. Kondrashova, and A. A. Neverov

229
