

Seed Science Research

Research Papers

- Hay, F.R., Mead, A. & Bloomberg, M. Modelling seed germination in response to continuous variables: use and limitations of probit analysis and alternative approaches 165
- Nadeem, M., Mollier, A., Morel, C., Prud'homme, L., Vives, A. & Pellerin, S. Remobilization of seed phosphorus reserves and their role in attaining phosphorus autotrophy in maize (*Zea mays* L.) seedlings 187
- Cochrane, A., Hoyle, G.L., Yates, C.J., Wood, J. & Nicotra, A.B. Predicting the impact of increasing temperatures on seed germination among populations of Western Australian *Banksia* (Proteaceae) 195
- Zhang, C., Liu, K., Qi, W., Ma, Z. & Du, G. Light-dependent associations of germination timing with subsequent life-history traits and maternal habitats for 476 angiosperm species of the eastern Tibetan Plateau grasslands 207
- Chen, S.-Y., Chien, C.-T., Hidayati, S.N. & Walck, J.L. Taiwanese montane *Sambucus chinensis* seeds require warm stratification, contrasting with other congeneric temperate members 217
- Jaganathan, G.K. & Liu, B. Seasonal influence on dormancy alleviation in *Dodonaea viscosa* (Sapindaceae) seeds 229
- Albrecht, M.A. & Long, Q.G. Germination niche of the permanent wetland specialist, *Parnassia grandifolia* DC 239
- Sánchez, A.M., Luzuriaga, A.L., Peralta, A.L. & Escudero A. Environmental control of germination in semi-arid Mediterranean systems: the case of annuals on gypsum soils 247
- Çatav, Ş.S., Küçükakyüz, K., Akbaş, K. & Tavşanoğlu Ç. Smoke-enhanced seed germination in Mediterranean Lamiaceae 257
- Bravo, C., Velilla, S., Bautista, L.M. & Peco, B. Effects of great bustard (*Otis tarda*) gut passage on black nightshade (*Solanum nigrum*) seed germination 265
