

PLANT, SOIL AND ENVIRONMENT

Volume 60, No. 12

December 2014

CONTENTS

Olszewski J., Makowska M., Pszczółkowska A., Okorski A., Bieniaszewski T.: The effect of nitrogen fertilization on flag leaf and ear photosynthesis and grain yield of spring wheat	531
Bi L., Xia J., Liu K., Li D., Yu X.: Effects of long-term chemical fertilization on trends of rice yield and nutrient use efficiency under double rice cultivation in subtropical China	537
Zhang J.J., Li H., Gao H.J., Zhu P., Gao Q., Wang L.C.: Effects of long-term fertilization and cropping regimes on total nitrogen and organic nitrogen forms in a Mollisol of Northeast China	544
Rutkowska A., Pikuła D., Stępień W.: Nitrogen use efficiency of maize and spring barley under potassium fertilization in long-term field experiment	550
Severin M., Breuer J., Rex M., Stemann J., Adam Ch., Van den Weghe H., Kücke M.: Phosphate fertilizer value of heat treated sewage sludge ash	555
Brant V., Pivec J., Hamouzová K., Zábanský P., Satrapová J., Škeříková M.: Determination of the influence of herbicides on dicotyledons plant transpiration using the sap flow method	562
Seres A., Kiss I., Nagy P., Sály P., Darvas B., Bakonyi G.: Arbuscular mycorrhizal fungi colonisation of <i>Cry3</i> toxin-producing <i>Bt</i> maize and near isogenic maize	569
Travlos I.S., Lysandrou M., Apostolidis V.: Efficacy of the herbicide GF-2581 (penoxsulam + florasulam) against broadleaf weeds in olives	574
